- Substantially all of the activities of the NFFE consist of holding (in whole or in part) the outstanding stock of, or providing financing and services to, one or more subsidiaries that engage in trades or businesses other than the business of a financial institution, except that an entity shall not qualify for NFFE status if the entity functions (or holds itself out) as an investment fund, such as a private equity fund, venture capital fund, leveraged buyout fund, or any investment vehicle whose purpose is to acquire or fund companies and then hold interests in those companies as capital assets for investment purposes.
- The NFFE is not yet operating a business and has no prior operating history, but is investing capital into assets with the intent to operate a business other than that of a financial institution, provided that the NFFE shall not qualify for this exception after the date that is 24 months after the date of the initial organisation of the NFFE.

- Registered deemed-compliant: An FFI that registers with the IRS to declare its status. FATCA Status

FATCA Status

Exempt beneficial owner

Definition

The term exempt beneficial owner includes those entities and products set out in the applicable IGA as treated as exempt beneficial owners under the applicable IGA.

Exempt beneficial owners include a foreign government, any political subdivision of a foreign government or any wholly owned agency or instrumentality of any one or more of the foregoing; any international organisations and any wholly owned agency or instrumentality thereof; any foreign central bank of issue; governments of U.S. possessions; certain retirement funds; and entities wholly owned by exempt beneficial owners.

Exempt retirement plans

If the entity is a tax resident in a country that has signed an IGA with the U.S., the Annex II of the local country IGA lists the retirement fund statuses available for exemption.

If this is not the case, the classifications listed below are the available classifications under the FATCA final regulation:

- Treaty-qualified retirement fund;
- Broad participation retirement fund;
- Narrow participation retirement fund;
- Fund formed pursuant to a plan similar to a section 401(a) plan;
- Investment vehicles exclusively for retirement funds;
- Pension fund of an exempt beneficial owner.

Financial institution (FI)

Financial institution means any entity that:

- Accepts deposits or other similar investments of funds in the ordinary course of a banking or similar business (depository institution).
- Holds, as a substantial portion of its business, financial assets for the benefit of one or more other persons (custodial institution).

FATCA Status

Foreign financial institution (FFI)

Definition

With respect to any entity not resident in a country that has in effect a Model 1 IGA or Model 2 IGA, an FFI is defined as any financial institution that is a foreign entity, other than a financial institution organised under the laws of a possession of the United States.

With respect to any entity that is resident in a country that has in effect a Model 1 IGA or Model 2 IGA, an FFI is any entity that is treated as a financial institution pursuant to such Model 1 IGA or Model 2 IGA. Those definitions include a branch of a U.S. financial institution that is located in the IGA country, but exclude a U.S. branch of a financial institution resident in the IGA country.

Global Intermediary Identification Number (GIIN)

A GIIN is the identification number used to identify the FFI for FATCA registration purposes and U.S. information reporting purposes. This represents combination of the FATCA ID and FFI EIN that were outlined in the proposed regulations.

Intergovernmental agreements (IGAs)

Intergovernmental agreements are intended to enable FFIs to identify and report to the IRS U.S. persons that hold assets abroad and for certain non-financial foreign entities (NFFEs) to identify their substantial U.S. owners. In order to comply with the rules, FFIs are required to enter into an FFI agreement with the U.S. Treasury or comply with IGAs entered into by their local jurisdictions. U.S. Withholding Agents (USWAs) must document all of their relationships with foreign entities in order to assist with the enforcement of the rules.

International organisations

Any international organisation or wholly owned agency or instrumentality thereof.

This category includes any intergovernmental organisation (including a supranational organisation):

- That is comprised primarily of non-U.S. governments.
- That has in effect a headquarters agreement with a FATCA partner jurisdiction; and
- The income of which does not inure to the benefit of private persons.

Limited branch

A limited branch is a branch of an FFI that, under the laws of the jurisdiction as of 15 February 2012 and that apply with respect to the accounts maintained by the branch, cannot do certain things. It cannot, with respect to accounts and the FFI agreement it is required to treat as U.S. accounts, report such accounts to the IRS, close such accounts within a reasonable period of time or transfer such accounts to a branch of the FFI, a Participating FFI member of the expanded affiliated group of the FFI, or another Participating FFI that may so report. It also cannot, with respect to recalcitrant account holders and accounts held by Non-Participating FFIs, withhold with respect to each such account, block such accounts (an account is considered blocked when the FFI prohibits the account holder from effecting any transactions with respect to an account until such time as the account is closed, transferred or the account holder provides the documentation for the FFI to determine the U.S. or non-U.S. status of the account), close each such account within a reasonable period of time or transfer such account to another branch of the FFI or a Participating FFI member of the expanded affiliated group of the FFI that is not subject to the restrictions with respect to such account holders.

Limited FFI

A limited FFI is an FI that due to local law restrictions cannot comply with the terms of an FFI Agreement, or otherwise be treated as a Participating FFI or registered deemed-compliant FFI, and that is agreeing to satisfy certain obligations for its treatment as a Limited FFI.

Non-Financial Foreign Entity (NFFE)

The term NFFE means a foreign entity that is not a financial institution (including a territory NFFE). The term also means a foreign entity treated as an NFFE pursuant to a Model 1 IGA or Model 2 IGA.

FATCA Status

Non-Participating FFI (NPFFI)

Definition

The term Non-Participating FFI means an FFI other than a Participating FFI, a deemed-compliant FFI or an exempt beneficial owner.

Non-reporting IGA FFI

Any IGA FFI or other entity resident in an IGA jurisdiction that is described in Annex II of the relevant IGA as a non-reporting FI.

Non-profit organisation

A non-profit organisation is an entity established and maintained in its jurisdiction exclusively for religious, charitable, scientific, artistic, cultural or education purposes if:

- It is exempt from income tax in its jurisdiction.
- It has no shareholders or members with a propriety or beneficial interest in the entity's income or assets.
- Neither the entity's jurisdiction's laws nor the entity's formation document permit income or assets to be distributed or benefited from an individual or non-charitable entity other than to further its charitable activities or as reasonable compensation for services or property for the charity; and
- The jurisdiction's laws or the entity's formation document require that upon the entity's liquidation or dissolution, all of its assets be distributed to a foreign government, another non-profit organisation, or the entity's government or any political subdivision thereof.

Organisation- 501 (c)

A 501(c) organisation is recognised by the IRS as a non-profit entity. As a result of this status, the organisation is not required to pay federal taxes on all or some of its income. To qualify for tax-exempt status, the organisation must have been set up for a clearly defined purpose and must have articles of organisation describing how its activities will support this purpose.

Owner-documented FFI

An owner-documented FFI will not itself withhold any payments or provide information reporting. However, the definition of owner-documented FFI includes strict requirements which make compliance with this exception difficult, including:

- The FFI cannot maintain financial accounts with a non-compliant FFI.
- Non-FFI account holders must report all U.S. ownership, not just substantial U.S. ownership.
- All withholding agents have to agree to comply with FATCA information reporting and withholding on behalf of the owner-documented FFI; and
- The FFI cannot issue debt that constitutes a financial account in excess of USD 50,000 to any person. This implies that the entity is not required to register with the IRS, but is required to provide to any withholding agent all required documentation regarding its owners, to certify on IRS form W-8 that it meets the requirements of its deemed-compliant category. The withholding agent then agrees to report to the IRS (or to the Luxembourg Tax Authorities) the information regarding substantial U.S. owners or the controlling U.S. persons.

An FFI may only be treated as an owner documented FFI with respect to payments received from and accounts held with a designated withholding agent (or with respect to payments received from and accounts held with another FFI that is also treated as an owner-documented FFI by such designated withholding agent). A designated withholding agent is a U.S. financial institution, Participating FFI, or reporting Model 1 FFI that agrees to undertake the additional due diligence and reporting required in order to treat the FFI as an owner documented FFI.

Participating FFI (PFFI)

The term Participating FFI means an FFI that has agreed to comply with requirements of an FFI agreement, including an FFI described in a Model 2 IGA that has agreed to comply with the requirements of an FFI agreement. The term also includes a Qualified Intermediary (QI) branch of a U.S. financial institution, unless such branch is a reporting Model 1 FFI.

Sponsored direct reporting NFFE

NFFE is a sponsored direct reporting NFFE if the NFFE is a direct reporting NFFE and if another entity, other than a Non-Participating FFI, has agreed with the NFFE to act as its sponsoring entity.

Sponsored FFI (that has not obtained a GIIN)

A sponsored FFI means an investment entity or an FFI that is a controlled foreign corporation (CFC) having a sponsoring entity that will perform the due diligence, withholding, and reporting obligations on its behalf. To allow a sponsoring entity to register its sponsored entities with the IRS, and, as previewed in Notice 2013-69, the IRS is developing a streamlined process for sponsoring entities to register sponsored entities on the FATCA registration website. Additional information about this process will be provided by the IRS at a later date.

Definition

An FFI that will also act as a sponsoring entity for one or more sponsored entities is required to submit a second registration form to act as a sponsoring entity.
