

Bart Coppens

Accenture

Bart holds a Master Degree from the applied economics department from the K.U.Leuven as "Commercial Engineer for Management Information Systems". He has over 13 years of experience in the Financial Services industry, mostly within Capital Markets. He has served over 7 years as management consultant at Accenture.

He has also worked within the financial services industry itself with over 6 years of experience as senior project leader and senior business analyst for the Triparty Collateral Management services for a global ICSD. As such he was involved in setting up systems and functionality for re-hypothecation of collateral, reconciliation of derivatives portfolios and obtaining liquidity at central banks using Triparty Collateral Management services.

Currently he is the practice lead for the Operations and Process Transformation service line for Belux at Accenture, specializing in Lean Management for financial institutions, as well as Subject Matter Advisor for all topics related to collateral management."
