

## CFF: Barclays (Luxembourg) Funds migrate to CFF

Effective

**Monday, 7 February 2011**

the Investment Fund Shares in Barclays Investment Funds (Luxembourg) and the Barclays Luxembourg Portfolios SICAV handled by The Bank of New York Mellon (International) Ltd. (Luxembourg Branch), as listed in the associated spreadsheet, will use the Central Facility for Funds (CFF) service.

All customers of Clearstream Banking that hold positions in these investment fund shares will immediately benefit from the process and service improvements described in Announcement A050, dated 26 February 2007.

### Migration details

<b>Scope:</b>	Funds available in Clearstream Banking handled by The Bank of New York Mellon (International) Ltd. (Luxembourg Branch) as Transfer Agent (please refer to the associated spreadsheet).
<b>Migration Day (MD):</b>	Monday 07 February 2011
<b>Fund Issuance Account (FIA):</b>	10245
<b>Timeline for process adaptations:</b>	
	<ol style="list-style-type: none"><li>1. All trades on trade date MD and later will use the CFF processes and settle against the FIA 10245 in Clearstream Banking, as listed in the associated spreadsheet.</li><li>2. Pending settlements from trade date MD-1 and earlier continue to be settled with the applicable existing process.</li><li>3. Clearstream Banking will automatically transfer all positions in the overnight processing preceding MD. No action is required by Clearstream Banking account holders.</li><li>4. All transfers (In/Out or between accounts) must be performed using the CFF processes for MD and later.</li><li>5. Transfers that do not follow the CFF processes can be executed, at the latest, on the business day MD-1.</li><li>6. Pending transfers that do not follow the CFF processes will be rejected by Clearstream Banking in the overnight processing preceding MD and will need to be re-instructed by the customer on MD.</li><li>7. Customers are recommended to instruct transfers by end-of-day MD-2 in order to ensure execution before the migration.</li><li>8. All corporate actions with Record Date MD and later will use the CFF processes.</li></ol>
