Clearstream Banking - fee schedule

1. General

This document sets out the fees for services offered by Clearstream Banking. Fees for German domestic business are covered by a separate document.

1.1 Validity

This fee schedule is valid from 1 July 2015 until further notice. Changes to the fee schedule are communicated to customers via customer announcements and are available on our website, www.clearstream.com.

1.2 Payment currency

All fees are expressed and invoiced in EUR unless otherwise specified. Payments can be made in other currencies via our automatic FX service.

1.3 Payment terms

Invoicing is carried out monthly. Clearstream Banking advises customers of the total amount of fees payable at the beginning of the month following the invoice period. Customers' accounts will be debited on the 15th day of the month or on the next possible business day if the 15th falls on a weekend or on a day that TARGET¹ is closed for business.

1.4 Internet access to invoices

The Clearstream Billing Portal provides easy online access to customer invoices via our website, www.clearstream.com under Applications/Billing Portal.

1.5 Instruments

For pricing purposes, instruments are grouped into three categories:

- Debt: Fixed rate eurobonds, fixed rate convertibles, other fixed rate bonds, floating rate notes, certificates of deposit (CDs), short term notes, euro commercial paper and all other bonds;
- Equities: Equities, depository receipts, warrants and rights;
- Investment Funds

1. Trans-European Automated Real-time Gross settlement Express Transfer system.

2. Safekeeping services

2.1 Main principles

2.1.1 Family groups and account grouping

The notion of family groups and account grouping plays an important role in the determination of safekeeping fees.

The group includes the parent company and all other affiliates, which are more than 50% owned and directly or indirectly controlled by the parent. Customers' accounts are automatically allocated to a group.

Family group discount mechanism

The total amount of the group's assets will determine to which family group a customer belongs. All accounts in the same family group will be able to benefit from rates that apply to that family group.

Group	1	2	3	4	5	6	7	8	9	10	11
Group deposit (EUR billion)	≤ 2	2-6	6-14	14-22	22-48	48-90	90-150	150-220	220-300	300-380	> 380

Each family group has its own specific sliding scales. The higher the family group, the more competitive the sliding scale becomes as illustrated in section ["2.1.3 Sliding scales for core markets"](#).

For example, a customer has several accounts and belongs to a group that holds a total of EUR 107 billion of assets under custody with Clearstream Banking. Therefore, each account benefits from the rates that apply to family group 7.

2.1.2 The core market concept

In addition to the family grouping discount mechanism described above, Clearstream Banking also groups together the markets in which our customers are most active.

These markets, referred to collectively as “core markets”, are as follows:

International securities¹	Italy
Austria	Netherlands
France	United Kingdom
Germany	United States of America

1. Domestic Luxembourg securities held with international depositories and investment funds deposited with CTA Depositories are classified as international securities for pricing purposes.
The list of international depositories can be found on the Clearstream website under [Key Documents/ICSD/Reference Data](#). For downloading, you may also want to refer to the Depositories database at codelist.clearstream.com.

For pricing purposes, all core market instruments are treated as belonging to one single market.

Separate sliding scales will be applied to the total of core market debt, the total of core market equities and the total of core market investment funds as shown in “[2.1.3 Sliding scales for core markets](#)”

2.1.3 Sliding scales for core markets

There are three sliding scales for core markets: one for debt, one for equities and one for investment funds. Since core markets are grouped together, customers benefit from competitive and achievable marginal rates.

The sliding scales that apply to core markets are as follows:

Debt												
Account deposit (EUR million)		Group deposit (EUR billion)										
From	To	1 ≤ 2	2 2–6	3 6–14	4 14–22	5 22–48	6 48–90	7 90–150	8 150–220	9 220–300	10 300–380	11 > 380

> 14,000		—	—	—	1.30	1.25	1.13	1.07	0.93	0.92

2.1.4 How does the core market concept work?

A customer belonging to a group that holds a total of EUR 50 billion of assets under custody with Clearstream Banking will benefit from the rates that apply to family group 6.

Debt		
Account deposit (EUR million)		Group deposit (EUR billion)
From	To	6 48-90
0	750	1.10
750	2,000	0.98
2,000	6,000	0.72
6,000	15,000	0.66
15,000	30,000	0.59
30,000	60,000	0.57
> 60,000		0.55

This customer holds EUR 12 billion of core market debt in its main account with Clearstream Banking. The family group 6 sliding scale for core market debt applies to all of the EUR 12 billion of core market debt in this account.

The charge applicable to EUR 12 billion of core market debt is calculated by applying the appropriate sliding scale rate until the complete holding is accounted for, as follows:

1. The first tranche of EUR 750 million is charged at 1.10 basis points.
2. The next tranche of EUR 1,250 million is charged at 0.98 basis points, the rate applicable to EUR 750 million to EUR 2,000 million.
3. The next tranche of EUR 4,000 million is charged at 0.72 basis points, the rate applicable to EUR 2,000 million to EUR 6,000 million.
4. The final tranche of EUR 6,000 million is charged at 0.66 basis points, the rate applicable to EUR 6,000 million to EUR 15,000 million

This marginal rate of 0.66 basis points applies to any additional core market debt deposited in the account until the holding exceeds EUR 15,000 million. An even lower marginal rate of 0.59 basis points applies to the holding in excess of EUR 15,000 million.

The core market concept is particularly attractive since it groups the most active markets for pricing purposes.

2.1.5 Specific markets

Specific markets include all markets that are not listed as a core market. These markets are priced by market and by instrument, that is debt, equities or investment funds. When investment fund prices are not listed explicitly for a market, the equity prices will also apply to investment funds.

Details of prices for specific markets can be found in "[Annex 1: Market Prices](#)".

2.2 Monthly deposit value calculation

The basis for the safekeeping fee calculation is:

$$\frac{\text{average daily value of securities in the month} \times \text{number of calendar days in the month}}{360} \times \text{Rate in b.p.}^1$$

1. One basis point (b.p.) = 0.01%

The daily value of securities is fixed after each daytime processing (DTP) and is based on the nominal value of debt securities and on the market value for all other securities. When no current market price is available or when the market price is below a given minimum price, Clearstream Banking may apply a default market price. Default prices are given in "[Annex 1: Market Prices](#)".

The deposit value of non-EUR securities is converted into EUR at the exchange rate prevailing at the end of the month.

2.3 Fee calculation example

Customer A holds the following securities in its account:

Holding of Customer A	Average deposit value (EUR million)
International debt	2,000
German debt	1,000
French debt	500
Italian equity	1,000
Finnish equity	275
Total	4,775

2.3.1 How are safekeeping fees calculated?

Step 1: Identify the overall family group to which the customer belongs

Customer A belongs to Group Y whose group deposits total EUR 20 billion across all markets. This means that customer A is allocated to family group 4:

Debt												
Account deposit (EUR million)		Group deposit (EUR billion)										
From	To	1	2	3	4	5	6	7	8	9	10	11
		≤ 2	2–6	6–14	14–22	22–48	48–90	90–150	150–220	220–300	300–380	> 380

Step 2: Calculate core market fees

1. Bundle together all deposits in core markets, within the same instrument type:

Core debt	Average deposit value (EUR million)	Core equities	Average deposit value (EUR million)
International debt	2,000	Italian equity	1,000
German debt	1,000		
French debt	500		
Total	3,500		1,000

2. Calculate the safekeeping fees for core markets debt based on the relevant sliding scale, within the relevant price column for the group.

For a month with 30 days:

Debt				
Account deposit (EUR million)		Group deposit (EUR billion)	Deposit (EUR million)	Monthly fees (EUR)
From	To	4 14–22		
0	750	1.15	750	7,187.50
750	2,000	1.10	1,250	11,458.33
2,000	6,000	0.89	1,500	11,125.00
6,000	15,000	0.78		
15,000	30,000	0.77		
Total			3,500	29,770.83
Average rate				1.02
Marginal rate for new deposits				0.89

3. Calculate the safekeeping fees for core markets equity based on the relevant sliding scale, within the relevant price column for the group.

For a month with 30 days:

Equity				
Account deposit (EUR million)		Group deposit (EUR billion)	Deposit (EUR million)	Monthly fees (EUR)
From	To	4 14–22		
0	70	2.20	70	1,283.33
70	170	2.05	100	1,708.33
170	300	1.60	130	1,733.33
300	600	1.58	300	3,950.00
600	1,500	1.45	400	4,833.33
Total			1,000	13,508.32
Average rate				1.62
Marginal rate for new deposits				1.45

Step 3: Calculate specific market fees

1. Separate all deposits in specific markets by instrument and market:

Specific equities	Average deposit value (EUR million)
Finnish equity	275
Total	275

2. Calculate the safekeeping fees based on the relevant sliding scale for the specific market, Finland (as shown in "[Finland](#)"), within the relevant price column for the group:

Equities				
Account deposit (EUR million)		Group deposit (EUR billion)	Deposit (EUR million)	Monthly fees (EUR)
From	To	4 14–22		
0	50	3.77	50	1,570.33
50	100	2.30	50	958.33
100	300	1.55	175	2,260.42
Total			275	4,789.08
Average rate				2.09
Marginal rate for new deposits				1.55

Step 4: Calculate the total safekeeping fees

Add together the safekeeping fees obtained for core markets and specific markets in order to obtain the total fees due:

Safekeeping fees	Monthly fees (EUR)
Total fees for core debt	29,770.83
Total fees for core equities	13,508.32
Total fees for specific equities	4,789.08
Total safekeeping fee	48,068.23

2.4 Minimum safekeeping fees

A monthly minimum safekeeping fee of EUR 200 is charged per account. If the safekeeping fees payable on an account for a month are less than EUR 200, an additional charge is booked so that the minimum amount is met. In case there is no custody activity, this minimum fee is waived.

3. Settlement and cash services

3.1 Security instruction fees

A security instruction is charged when the instruction is settled, and an external delivery instruction is charged when provisioned. For fund relocation, the transfer is charged when the instruction is valid. The fee applied is based on the number of instructions per account during the month.

3.1.1 Internal and Bridge instructions and instructions resulting from trades on trading venues processed via a Central Counterparty (CCP)

Debt and Equity

For combined settlement volumes, there is one sliding scale that applies to both debt and equity instruments across all markets combined per customer account.

The fees are as follows:

Internal, Bridge and CCP Debt and Equity		
Number of instructions		Price (EUR)
From	To	
1	250	2.25
251	750	2.00
751	1,500	1.55
1,501	2,500	1.20
2,501	10,000	0.75
10,001	25,000	0.60
25,001	50,000	0.50
50,001	100,000	0.40
100,001	150,000	0.275
150,001	200,000	0.15
200,001	250,000	0.10
250,001	300,000	0.075
300,001	350,000	0.05
350,001	400,000	0.04
400,001	500,000	0.03
> 500,000		0.02

Internal instructions - investment funds

A separate sliding scale applies to internal instructions in investment funds across all markets combined per customer account.

The fees are as follows:

Number of instructions - DvP		Price (EUR)
From	To	
1	75	4.00
76	150	3.00
151	750	2.00
751	1,500	1.00
1,501	2,500	0.50
> 2,500		0.45

Number of instructions - FOP		Price (EUR)
From	To	
1	75	4.00
76	150	3.00
151	750	2.00
751	1,500	1.00
1,501	2,500	0.50
> 2,500		0.45

Bridge instructions - investment funds

A separate sliding scale per market applies to Bridge instructions in investment funds. Please refer to “[Annex 1: Market Prices](#)” for details of the settlement fees.

Example

Customer A settles 20,000 internal and Bridge instructions with Clearstream Banking (comprising 12,000 Eurobond instructions, 4,000 Eurobond Bridge instructions, 2,000 German debt Bridge instructions, 2,000 French equity Bridge instructions).

The charge applicable to these 20,000 internal instructions is calculated by applying the appropriate sliding scale rate until all instructions are accounted for, as follows:

1. The first 250 instructions are charged at a price of EUR 2.25 per instruction.
2. The next 500 instructions are charged at a price of EUR 2.00 per instruction.
3. The next 750 instructions are charged at a price of EUR 1.55 per instruction.
4. The next 1,000 instructions are charged at a price of EUR 1.20 per instruction.
5. The next 7,500 instructions are charged at a price of EUR 0.75 per instruction.
6. The remaining 10,000 instructions are charged at a price of EUR 0.60 per instruction as shown in the following table:

Number of instructions		Number × price	Monthly fees (EUR)
From	To		
1	250	250 × 2.25	563
251	750	500 × 2.00	1,000
751	1,500	750 × 1.55	1,163
1,501	2,500	1,000 × 1.20	1,200
2,501	10,000	7,500 × 0.75	5,625
10,001	25,000	10,000 × 0.60	6,000
Totals		20,000	15,550

3.1.2 External instructions

External instructions are priced by market and by instrument, that is debt, equities or investment funds, per customer account. When investment fund prices are not listed explicitly for a market, the equity prices will also apply to investment funds.

Please refer to “[Annex 1: Market Prices](#)” for details of the settlement fees.

3.1.3 Stock exchange instructions not processed via a CCP

Stock exchange (SE) instructions are currently available for accounts opened with Clearstream Banking Frankfurt (CBF) only. Please contact your Client Services Officer or Relationship Officer for further information.

SE fees are as follows

SE instruction	Per instruction (EUR)
SE instructions (CBF)	1.75

Volume discount scheme

Volume discount applied to total settlement price.

Number of transactions	Discounts
from 40,000 per month	5.00 %
from 80,000 per month	7.50 %
from 100,000 per month	10.00 %

3.2 Cash instruction fees

3.2.1 Instructions for the credit and withdrawal of cash

Credits and withdrawals of cash, for all currencies, are charged as follows:

Credit and withdrawals of cash	Per instruction (EUR)
All currencies	10.00

3.2.2 Charges for uncovered or late covered pre-advice

Charges will apply for all pre-advice that have been covered late or cancelled after the published deadline as shown in the following table:

Type	Interest Charge
Uncovered pre-advice	The charge equals the net difference between the overdraft interest charged by our cash correspondent bank plus 0.125% (annual basis) and the interest earned by Clearstream Banking on the overnight money market placement. No charge is levied if the amount is less than EUR 5 or equivalent.
Late covered pre-advice	The charge equals the overdraft interest charged by our cash correspondent bank plus 0.125% (annual basis). No charge is levied if the amount is less than EUR 5 or equivalent.
Incorrectly covered pre-advice	If payment is received at a different Clearstream Banking cash correspondent bank than the one given in the pre-advice, Clearstream Banking will arrange for the realignment of cash for the next possible value date. The same charge will apply as for late covered pre-advice as described above.
Uncovered or late covered pre-advice at central bank accounts (Banque centrale du Luxembourg)	For pre-advice covered between 17:00 and 18:00, same day value will be applied. The fee in accordance with the Banking Federation of European Union (FBE) guidelines on liquidity management, is calculated as follows: $\frac{A \times B \times C}{360}$ where - A = amount in EUR - B = ECB lending rate minus ECB deposit rate - C = number of calendar days calculated as if the cash was received on the next TARGET working day Note: Pre-advice not covered by 18:00 will remain in status "unconfirmed" and will be cancelled by 09:00 on the following business day. The same charge will apply as for uncovered pre-advice (see above).

Charges will be posted to the customer's Suspense Report on the business day following the cancellation or the late receipt. Value date of the charges will be five business days after the charge posting date. All charges will be in the currency of the pre-advice. If there is no pre-advice, the account is credited with the next possible value date.

3.2.3 Cash movements

Cash debit and credit instructions posted on a customer's account and not in the "Instructions for the credit and withdrawal of cash" category are charged as follows:

Cash movement	Debit (EUR)	Credit (EUR)
All currencies	3.50	3.50

3.3 Minimum settlement fees

A monthly minimum settlement fee of EUR 75 is charged per account. If the settlement fees payable on an account for a month are less than EUR 75, an additional charge is booked so that the minimum amount is met. In case there is no settlement activity, this minimum fee is waived.

3.4 Other instruction fees

3.4.1 Security instructions in suspense

Any internal or bridge instruction not settled within 45 days of the requested settlement date is subject to a charge, corresponding to the first tier of the settlement instruction fees outlined in "[Annex 1: Market Prices](#)".

3.4.2 Cancellation of cash and security instructions

A cancellation fee applies to each instruction submitted that is subsequently cancelled.

The fee is EUR 0.25 per cancellation request. For requests to cancel pending receipts in domestic markets, fees are calculated by market and by instrument. The fee charged corresponds to the price of the first tranche of external settlement fees as shown in "[Annex 1: Market Prices](#)".

3.4.3 Repair of cash and security instructions

Instructions that are incorrectly formatted, received after the published deadlines or requiring manual intervention are charged as follows:

Repair	Per repair (EUR)
All instructions	30.00

3.4.4 Shipment fees

Shipment fees and other out of pocket expenses (including insurance costs) incurred by Clearstream Banking when receiving or physically delivering securities, will be charged at cost.

3.4.5 Single Matching Account Service

For accounts defined as Group Matching Accounts and their linked Single Matching Accounts, an additional EUR 0.35 per settled transaction will be charged on all securities transactions with the exception of free of payment transfers between customer accounts.

3.4.6 Euro Night-Time Funding Link

A fee of EUR 15 is charged for each processed night time funding instruction.

3.4.7 Pair-off requests via Security Payment Order(SPO)

A fee of EUR 80 is charged per SPO instruction.

3.5 Financial transaction tax

	(EUR)
Per declaration - France	30.00
Per instruction - France	0.02

Any costs charged by Euroclear France to Clearstream will be charged to the customer as an additional out-of-pocket expense.

4. Custody administration services

Custody administration charges are unbundled from Clearstream Banking's safekeeping charges.

General principles for the charging of custody administration services are:

- The charging of mandatory corporate events (compensations, cash payments, redemptions, stock dividends etc.) is based on the number of executed events, regardless of the number of internal bookings involved.
- The charging of voluntary events, for which customer instructions are required, is based on the number of customer instructions. In case of an instruction being cancelled upon customer request, the initial instruction will be charged whereas there is no fee for the cancellation instruction.
- If a coupon on a dividend payment is reversed, the related event fee is cancelled.

4.1 Custody events ¹

5.3 CreationDirect charges

CreationDirect is the dedicated file transfer service for the transfer of instruction files and the download of reports. CreationDirect offers customers these choices of communication network:

- Clearstream Banking's Virtual Private Network (VPN) for users of CreationDirect via VPN;
- The public internet for users of CreationDirect via Internet; or
- The SWIFTNet FileAct service for users of CreationDirect via SWIFTNet.

5.3.1 Sending instructions to Clearstream Banking

There is no charge to customers for submitting instructions in ISO 15022 format to Clearstream Banking using CreationDirect.

5.3.2 Charges for receiving reports from Clearstream Banking

With CreationDirect, reports can be delivered in ISO 15022 format, Extensible Markup Language (XML) or Portable Document Format (PDF).

Free-of-charge trial period

A one month free-of-charge trial period, during which there will be no report charges or transport charges, will be offered to customers using CreationDirect via VPN, CreationDirect via SWIFTNet¹ or CreationDirect via Internet to allow customers to prepare for a smooth transition to these services.

Transport charges

The applicable data transport charges for users of CreationDirect via VPN or SWIFTNet are independent of the format used for the report.

For multi-item reports, a transport charge of EUR 0.02 is applied for each transferred reporting item. For single item reports, a transport charge of EUR 0.15 is applied for each individual reporting item.

Data transport charges are not applicable to reports received using CreationDirect via Internet.

No limit will be imposed on the number of reports retrieved using the CreationDirect via Internet service. However, a fee of EUR 0.80 will be charged if the same report is viewed or retrieved more than five times. This applies to each filestore.

SWIFTNet FileAct charges

In addition to the CreationDirect charges, any data transport charges incurred by Clearstream Banking for sending reports to customers via CreationDirect using the SWIFTNet FileAct Service will be charged back at cost.

5.3.3 CreationDirect via VPN charges

Third party licence

CreationDirect via VPN uses the Sterling Connect:Direct software provided by IBM. The charge for the use of this software is included in the standard workstation licence fee charged to customers who opt to run CreationDirect over Clearstream Banking's VPN using the Windows or UNIX operating systems (see "5.4 Workstation charges").

Customers opting to use any operating systems other than Windows or UNIX must license the Sterling Connect:Direct software directly from IBM – including any required training, support and maintenance.

Installation and training

Clearstream Banking provides on-site training and installation support on a time and materials basis of EUR 700 per person day plus expenses incurred.

VPN equipment

Clearstream Banking will not provide any hardware or software that might be required to connect to Clearstream Banking's VPN. The appropriate specifications for the necessary hardware and software can be found in the CreationDirect User Manual, which is available on Clearstream Banking's website, www.clearstream.com.

1. Any costs charged by SWIFT to Clearstream Banking during this period will be passed on to the customer.

5.4 Workstation charges

Fees for the CreationConnect range of connectivity services include the installation package (one copy of the documentation and software required to access CreationConnect products), and telephone support.

Monthly licence fees are as follows:

For users of CreationOnline and CreationDirect	EUR 300 per organisational unit independent of the number of concurrent users and installations.
--	--

5.5 SWIFT FIN message charge

Each SWIFT FIN message will be charged at EUR 0.36 per message.

5.6 Training fees

Basic, advanced and customised training and installation solutions are available. Please contact your Relationship Officer to discuss your requirements and be advised of any charges that may apply.

6. Investment funds services - CFF and Vestima

6.1 Fund issuance through CFF

6.1.1 STP Fund issuance

The STP fund issuance instruction price is charged to Fund Issuance Accounts and includes the following service components:

- Comprehensive CBL standard information provision services defined in “[Information provision services](#)” on page 18, including data transport;
- Dedicated fund reports (FMRS standard report, Vestima^{TRACK})
- Guaranteed timestamp (trusted source)
- Standard account service fees

Number of instructions per month		STP fund issuance instruction	Additional fund issuance instruction fee for CFF Hosted investment funds

6.2.2 Orders sent by free-format message or MT599

Orders not issued through Vestima, including orders issued in the context of the automatic dividend reinvestment service, will be charged 0.5% of the total order value expressed in EUR, with a minimum charge of EUR 150 and a maximum of EUR 5,000.

6.2.3 Vestima license fee

The Vestima license fee is EUR 850.00 per month.

7. Global Securities Financing

7.1 Automated Securities Lending and Borrowing Services (ASL)

Securities Lending and Borrowing fees are calculated once a day after the End of day processing has been completed.

Fees are charged and income is paid "pro rata temporis". Calculations are based on a 360-day year and on the market value of the securities (plus accrued interest where applicable).

For details of the billing calculation of a loan please refer to the billing section in the Automated Securities Lending Programme: product guide, available on our website www.clearstream.com under Products & Services/Global Securities Financing.

Lending and borrowing rates (End of day rates) are updated on a monthly basis, published in an Announcement on our website, and sent to customers via the "Publication Alerts services".

Announcements and the "Publication Alerts services" are explained in the Customer Handbook, available on our website www.clearstream.com under Key Documents/ICSD/Customer Handbook.

7.1.1 Handling fees

Handling fees are charged to borrowers on any loan opened:

Value of the trade settled			
≤ USD 99,999	USD 100,000 - 999,999	USD 1,000,000 - 4,999,999	≥ USD 5,000,000
EUR 1	EUR 2	EUR 6	EUR 8

7.1.2 Loan recall penalty fee

Any recalled securities not returned are subject to a penalty fee of EUR 1,250 on the recall expiration date. Lenders receive EUR 500 of the penalty fee that is charged. Clearstream Banking retains EUR 750 to cover recall administration costs.

At the discretion of Clearstream Banking, further charges may be incurred on every 4th business day after the recall expiration date until the securities are returned.

7.2 ASLplus

Securities Lending fees for ASLplus are calculated at the end of each day based on a market rate that has been negotiated for each individual loan. The value of the loan is determined at the start of the loan and remains constant throughout its duration unless otherwise specified. The rate also remains the same during the life of the loan unless the loan is re-rated by Clearstream Banking. All calculations use the gross rate which is split 50:50 between the Lender and Clearstream Banking.

Please contact your Relationship Officer for further details.

7.3 Triparty collateral management services

Fees are applicable to collateral givers and collateral receivers for the following services:

- Triparty Repo;
- Triparty Collateral Management;
- Triparty Securities Lending.

7.3.1 Fees for a collateral giver

Servicing fee

The daily value of securities is fixed at the end of real-time processing (RTP).

The servicing fee is calculated daily and is based on the total market value¹ of the securities allocated to the collateral account. The calculation will apply to each asset class separately (bonds, equities, funds and cash) in accordance to the following stepping scale:

Market value (EUR billion)	Applicable stepping scale rate (basis points per annum)
<1	2.00
< 5	1.50
< 10	1.20
< 20	1.00
< 40	0.90
> 40	0.65

The fee is calculated daily as follows:

$$\frac{\text{daily market value of securities held} \times \text{applicable rate in b.p.}}{360}$$

For example, if the total market value of the assets held on day 1 is EUR 0.90 billion and on day 2 is EUR 1.10 billion, the calculation is as follows:

	Market value (EUR billion)	Applicable stepping scale rate (basis points)	Daily fee (EUR)
Day 1	0.90	2.00	500.00
Day 2	1.10	1.50	458.33

The monthly fee is the sum of the daily fees. A minimum monthly fee of EUR 1,000 for the total of 7.3.1 and 7.4 will be charged.

Note: Please see 7.3.4 for the servicing fee for contracts using GC Baskets traded through a CCP.

Safekeeping fee

Securities of a collateral giver that are moved into the collateral accounts are deemed to remain in the collateral giver's account for the purpose of calculating the safekeeping fee. Please refer to "2. Safekeeping services" on page 2 for more information.

Security instruction fee

Settlement fees apply to security transactions generated in the collateral giver's accounts. Please refer to "3.1 Security instruction fees" for more information.

Custody administration services fee

Custody administration and corporate event fees on securities used as collateral are charged to the collateral giver. Please refer to "4. Custody administration services" for more information.

1. Plus accrued interest where applicable

Other fees

All other fees are charged in accordance with the relevant section of this Fee Schedule.

Exposure notification

A fee of EUR 100 is charged for each manually processed exposure notification.

Negative interest

From time to time, as result of specific market conditions, a credit balance in Clearstream Banking in certain currencies may be subject to negative interest rate. If negative interest is charged on cash collateral held in collateral accounts, the amount will be charged to the collateral giver.

7.3.2 Fees for a collateral receiver

Servicing fee

There is no servicing fee on the collateral for Triparty Repo, Triparty Collateral Management and Triparty Securities Lending.

Note: Please see 7.3.4 for the servicing fee for contracts using GC Baskets traded through a CCP.

Safekeeping fee

There is no safekeeping fee on the collateral for Triparty Repo, or Triparty Collateral Management or Triparty Securities Lending.

Security instruction fee

There is no settlement fee on the collateral for Triparty Repo, or Triparty Collateral Management or Triparty Securities Lending.

Custody administration and corporate event fee

Custody administration and corporate event fees do not apply to the collateral for Triparty Repo, or Triparty Collateral Management or Triparty Securities Lending.

Other fees

All other fees are charged in accordance with the relevant section of this Fee Schedule.

Exposure notification

A fee of EUR 100 is charged for each manually processed exposure notification.

7.3.3 Fees for collateral re-use

Servicing fee

The servicing fee for a collateral receiver re-using collateral as a collateral giver, will be calculated as per 7.3.1 hereabove.

Safekeeping fee

The safekeeping fee for re-used collateral will be calculated as per 7.3.1 hereabove and charged to the last collateral giver in the chain of re-use.

Security instruction fee

The settlement fee for re-using collateral will be calculated as per 7.3.1 hereabove

Custody administration and corporate event fee

The custody administration fee for re-using collateral will be calculated as per 7.3.1 hereabove and charged to the last collateral giver in the chain of re-use.

Other fees

All other fees will be calculated as per 7.3.1 hereabove.

7.3.4 Fee for contracts using GC Baskets traded through a central counterparty (CCP)

Servicing fee¹

The servicing fee for contracts using GC Baskets traded through a CCP is as follows:

GC Baskets through a CCP	Fee (Basis points)
Collateral giver ¹	0.60
Collateral receiver ²	0.60

- GC Pooling fee breakdown is as follows:
0.25 b.p. for allocation to Reservation account (please see 7.3.5);
0.1 b.p. for allocation to CCP and additional 0.25 bp for servicing fee of Xemac.
- GC Pooling fee for breakdown is as follows:
0.35 b.p. for allocation to Segregation account and additional 0.25 b.p. for servicing fee of Xemac. Standard Safekeeping fees on the Segregated account will be charged to the collateral receiver.

For technical reasons, the calculation period is from the 21st of the preceding month to the 20th of the invoiced month.

7.3.5 Fee for usage in Xemac (CBF) of assets held in Creation

Servicing fee

The servicing fee for a collateral giver using Creation's assets via a Reservation account, for further earmarking in Xemac, will be calculated daily, based on a flat fee of 0.25 b.p., based on the market value¹ of the total assets held in the Reservation account.

Additional fees may be charged by Clearstream Banking AG Frankfurt, according to the Domestic Fee Schedule for customers of Clearstream Banking Frankfurt.

Safekeeping fee

Securities of a collateral giver that are moved into a Reservation account are deemed to remain in the collateral giver's account for the purpose of calculating the safekeeping fee. Please refer to "2. Safekeeping services" for more information.

Security instruction fee

Settlement fees apply to security transactions generated in the collateral giver's accounts. Please refer to "3.1 Security instruction fees" for more information.

Custody administration services fee

Custody administration and corporate event fees on securities used as collateral are charged to the collateral giver. Please refer to "4. Custody administration services" for more information.

Other fees

All other fees are charged in accordance with the relevant section of this Fee Schedule.

1. A minimum monthly fee of EUR 2,500 will be charged.

Other fees

All other fees are charged in accordance with the relevant section of this Fee Schedule.

7.4 Triparty Pledge Service Agreement

Servicing fee

The daily value of securities is fixed at the end of real-time processing (RTP).

The servicing fee is calculated daily based on a **flat rate (0.25 b.p.)**, based on the market value¹ of the total of the assets held in the Pledge accounts, as follows:

$$\frac{\text{daily market value of securities held} * 0.25 \text{ b.p.}}{360}$$

For example, if the total market value of the assets held on day 1 is EUR 500 million, the calculation is as follows:

$$\frac{500.000.000 * 0.25 \text{ b.p.}}{360} = \text{EUR } 34,72$$

The monthly fee is the sum of the daily fees. A minimum monthly fee of EUR 1,000 for the total of the servicing fee of 7.3.1 and 7.4 will be charged.

Negative interest

From time to time, as result of specific market conditions, a credit balance in Clearstream Banking in certain currencies may be subject to negative interest rate. If negative interest is charged on cash collateral held in collateral accounts, the amount will be charged to the fee paying party (pledgor or pledgee) defined in the governing legal agreement.

1. Plus accrued interest where applicable.

8. Miscellaneous charges

8.1 Standard account service fee

An account management fee of EUR 200 is charged per month, per customer account, which includes:

- Account opening/maintenance;
- Electronic announcements and market information;
- Access to securities information and databases;
- Basic customer training;
- Umbrella Credit and Collateral services;
- Access to the Billing Portal of Deutsche Börse Group AG.
- Access to Customer Support
- Customer head offices, branches, subsidiaries having multiple account structures in place benefit from the following sliding scale

Number of accounts		Fee (EUR)
From	To	
0	10	200.00
11	25	150.00
26	50	75.00
51	75	50.00
> 75		25.00

8.2 Additional charges

Any additional charges incurred by Clearstream Banking on behalf of a customer in connection with income payable, tax refunds, registration of securities, conversions or exercise of rights, mailing and postal expenses etc. will be charged at cost.

Clearstream Banking reserves the right to apply an hourly rate of EUR 143 for specific requests from customers that involve extensive research, or exceptional work (e.g. manual set-up of customer contingency instructions).

8.3 Value added tax and other taxes

Value added tax and other taxes are not included in these fees.

8.4 Primary market services

European Pre-Issuance Messaging (EPIM) service

For the allocation of ISIN codes, Clearstream Banking will charge the individual messages sent to Dealers and Issuing and Paying Agents:

Daily issuance volumes for ISIN related message types (DIR, IIR, IAD)	Fee per message (EUR)
Up to 100	2.00
101 to 200	1.50
Over 201	1.00
Other messages	2.00

All charges are applied to the sender of the message except for IADs where recipients are also charged.

8.5 Tax credit advice

8.5.1 Request within 13 months after the P/D

EUR 60

8.5.2 Request raised between 13 and 24 months after the P/D

EUR 120

8.5.3 Request raised more than 24 months after the P/D

EUR 180

8.6 TEFRA-D free-format message handling

If a SWIFT free-format message (MT299, MT599, MT568), fax or CreationOnline free format message via Message Exchange is received in relation to TEFRA-D ownership statements instead of a standard MT565 instruction or a Corporate Action reply via CreationOnline, a manual handling fee of 150 Euro per ISIN will be charged in addition to the regular charge for the resulting action.

8.7 Domestic Markets Monitoring Report

An annual fee of EUR 10,000 will be charged at the end of each year. (Should the relevant account be closed within the year, the full amount will be charged upon closure.)

8.8 Income Monitoring Tool

A remote installation fee of EUR 1000 will be charged when subscribing.

A monthly fee of EUR 1000 will be charged. A 50% discount will apply for the first three months.

Annex 1: Market Prices

The following section shows settlement and safekeeping fees for each market.

Core markets concept for safekeeping

For pricing purposes, all core market instruments are treated as belonging to one single market. Separate sliding scales will be applied to the total of core market debt, the total of core market equities and the total of core market investment funds.

The core markets are as follows:

International securities¹	Italy
Austria	Netherlands
France	United Kingdom
Germany	United States of America

1. All domestic Luxembourg securities are considered to be International securities - see "2.1.2 The core market concept" on page 3 for more information.

The safekeeping fees have been shaded on the applicable market page for each of the core markets to indicate that holdings in these categories should be bundled prior to performing the fee calculations.

Security instruction fees on internal transactions

For internal instructions, there is one sliding scale that applies to both debt and equity instruments in all markets combined per customer account. A separate sliding scale applies to internal instructions in investment funds across all markets combined per customer account.

All markets Settlement

Marginal rates: EUR per instruction.

The supervisory fees charged by the Spanish Regulator, the Comisión Nacional del Mercado de Valores (CNMV), on securities traded in the Asociación de Intermediarios en Activos Financieros (AIAF) market are passed on as an out-of-pocket expense. The fee is 0.06 basis points per quarter on the nominal amount of the securities held. The CNMV calculates this fee based on the positions held by a customer on the last day of each month of the quarter. The average of the three monthly fees is charged at the end of the quarter. CBL charges on a monthly basis.

Cross-border collateralisation: Pledged securities positions are charged at 1.80 basis points per annum. CBL charges on a monthly basis.
