Settlement Timings Matrix

This Settlement Timings Matrix is a quick reference guide for all markets covered by Clearstream Banking S.A. (CBL).

For more detailed information about the domestic cash and securities services provided by CBL, please refer to the Market Coverage information for the respective market on the [Clearstream website](#).

Settlement and cash deadlines are aligned with local times, which means that CBL takes into account daylight saving time (DST) changes around the world when setting its Central European Time (CET) deadlines. This enables clients to benefit from extended CET deadlines whenever possible.

A new version of this document will be available in October each year.

Unless otherwise indicated, all timings are given in CET.

Settlement instruction deadlines

Standard deadlines apply to settlement instructions submitted via all connectivity media. Securities accepted for settlement in Clearstream Banking vary according to the different local market systems. Settlement instruction deadlines may also vary according to these differences, as indicated in the Matrix.

Deadlines for **external securities transactions** vary according to the country and the security type, and are detailed in this Matrix. The timings for the real-time and end of day processing and the mandatory and optional processing periods are shown in the following figure:

Market Link Guide

Timings for the night-time, real-time and end of day processing

a. Although the input deadline for all Bridge instructions against payment ARS is 17:00, clients are recommended to send their receipt instructions against payment in ARS by 15:30 at the latest. Both counterparties must ensure the receipt and the delivery instructions are for the mandatory and optional settlement periods.

Settlement Timings Matrix

Deadlines for **internal and Bridge securities transactions** are standard for all securities.

The table below shows the input deadlines for:

- Internal transactions (those between two Clearstream Banking accounts);
- Bridge transactions (those between a Clearstream Banking account and an account in Euroclear Bank).

Instructions are settled in Clearstream Banking during the night-time processing and on a real-time basis throughout the day with a final processing at the end of the day.

The table shows the latest deadlines for inclusion of instructions in the mandatory and optional settlement period processing.

Cancelling/amending securities instructions

Instructions are considered by Clearstream Banking to be irrevocable and cannot be cancelled once they have been reported as settled.

General notes on the Matrix

The deadlines shown below are valid provided that the client's instructions are complete, accurate and eligible for straight-through processing (STP) in CBL and in the local market. Clients must also ensure that any necessary provision is available. If any of these criteria are not met, CBL cannot guarantee timely settlement.

Important note: As part of CBL's internal compliance procedures, all incoming client instructions will be automatically scanned before entering transaction processing. Instructions that are internally flagged as requiring further manual investigation are set to status pending, with such status immediately reported to the client via their chosen media channel(s), until either being manually released for processing or rejected. In order to ensure that instructions being investigated do not miss the applicable deadlines, clients are advised to input instructions at least 15 minutes before the associated deadline.

For specific deadlines for back-to-back and repo transactions in an individual market, please refer to the respective Market Link Guide.

Expected settlement results gives an indication of the times clients can expect to receive the results of their domestic transactions reflected in their CBL account. These results may be delayed in some cases due to unforeseen market circumstances.

The column PM/B2B/MMS shows information per depository only, not per security type. For further details on these services please refer to the respective Market Link Guide.
