1. Introduction

1.1 Structure and intent of this document

This document focuses on the Unified for New Opportunities initiative of Clearstream and more specifically on the third activation wave in September 2026. The document follows the same principles as Wave 1 and will explain the changes for the markets in Wave 3 scope.

This document only focuses on the changes which come for the markets Sweden Poland, Mexico, New Zealand, Czech Republic and Hong Kong markets activation in Wave 3 in September 2026.

Chapter 1 explains beside the general structure of the document the activation principles for the ISINs in scope.

Chapter 2 summarises the key aspects of the activation of the markets Sweden, Poland, Mexico, New Zealand, Czech Republic and Hong Kong. It explains the impact on the different Clearstream products resulting from the specific market activation. Please be aware that similar to the first and second activation wave not every product will be impacted by the third market activation wave. Nevertheless, each product has a dedicated chapter which may contain only the statement that there is no impact within this specific market activation wave on the respective product.

1.2 Activation principles

With the activation of the markets Sweden, Poland, Mexico, New Zealand, Czech Republic and Hong Kong T2S settlement will be enabled for securities issued in these markets. Clients can check whether the ISINs are T2S eligible using Xact Web Portal and the Codelist – Securities Database. They can benefit from T2S for the activated ISINs. Clearstream has enhanced Xact Web Portal and the Codelist – Securities Database, making it possible to identify the ISINs which are eligible for the Unified for New Opportunities initiative.

Physical securities issued in the markets included in each respective wave and listed on German stock exchanges will be made eligible for settlement. Settlement will be possible for internal transactions and external transactions with counterparties in CBL and EB. External settlement of physical securities with counterparties in domestic markets will not be supported.

Clearstream will publish an excel list on the [Unified for New Opportunities](#) web page with all ISINs in scope of the market activation four weeks before the market activation date. The activation principles and published fields will follow the same principles as they are described in [Unified for New Opportunities Detailed Functional Specifications](#) for Norway and Australia section 1.2.

Payments resulting from CA will follow the same principles that are described in [Unified for New Opportunities Detailed Functional Specifications](#) in section 1.2.

2. Detailed Functional Specifications

2.1 Activation of the Swedish market

This chapter outlines the changes that the activation of the Swedish market will bring for CEU clients for all Clearstream products that are impacted by the overall initiative.

2.1.1 Settlement

Intra-CSD settlement

For intra-CSD settlement (CEU-CEU) of Swedish securities in EUR CEU clients will benefit from the full range of T2S settlement services (for example, partial settlement, hold and release) like any other T2S securities. Also, the existing T2S settlement timelines will apply.

Cash in EUR will settle in central bank money (CeBM) via DCA account and cash in non-EUR will settle in commercial bank money (CoBM) via 6-series account until the Unified for New Opportunities final migration or via CBL account afterwards. Clients should be aware that partial settlement is not available for both delivery and receipt in non-EUR currency.

Cross-CSD settlement

Clearstream is working in enabling other T2S-CSDs to appoint CEU as technical Issuer CSD for all securities in the scope of this initiative. However, this functionality is not yet available. Therefore, there will be no cross-CSD settlement with the activation of the market.

External-CSD settlement

External settlement with CBL counterparty

External-CSD settlement (CEU-CBL) of Swedish securities will follow the already applicable standards for ISINs active on the CEU-CBL link. Please refer to the Activation principles section for the new opportunity to identify the ISINs. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - International \(CEU\)](#).

External settlement with EB (Euroclear Bank) counterparty

External-CSD settlement (CEU-CBL-EB) for Swedish securities will follow the already applicable standards for ISINs active on the CEU-CBL-EB link. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL-EB link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - Bridge](#).

External-CSD settlement with a domestic Swedish counterparty

External-CSD settlement with domestic counterparties in Sweden via enhanced CEU-CBL-domestic link will be available with the activation of the Swedish market in September 2026.

Nominal limits of SEK 500 million and EUR 50 million apply to free of and against payment transfers of debt securities on VPC Penningmarknad (PM) sub-market. Clients settling transactions with Swedish counterparties on VPC PM sub-market must divide any nominal value that exceeds the applicable limit into multiple transactions, each with a nominal value at or below the relevant limit.

The following table compares the As-Is functionalities on 6-series accounts and To-Be functionalities on CEU accounts for external CSD settlement for Swedish securities with a domestic Swedish counterparty. For instruction examples, please refer to the Appendix.

Service	As-is on 6-series account	To-be on CEU with domestic counterparty
Settlement – Free of Payment and Versus Payment	<p>FOP and Versus Payment settlement is supported for 6-series account clients for Swedish Market.</p> <p>Eligible settlement currency for Swedish market: Swedish Krona (SEK).</p> <p>Securities quoted and registered in EUR settle in EUR.</p>	<p>FOP and Versus Payment settlement will be supported for CEU clients for the Swedish market.</p> <p>Eligible settlement currency for Swedish market: Swedish Krona (SEK). Please note that (EUR) will not be an eligible settlement currency.</p>
Hold and Release	Not offered	Not offered
Immediate Release	Immediate Release mechanism is supported for 6-series account clients.	Immediate release is not compatible with T2S (therefore it is not offered)
Partial Settlement	<p>Not offered for deliveries.</p> <p>Offered for receipts.</p>	Partial settlement will not be supported for instructions with domestic Swedish counterparties for both delivery and receipt instructions
Cash Penalty	Cash penalties received from the domestic market are forwarded to the 6-series account client.	Cash penalties received from the domestic market will be forwarded to 6-series account client .
Back-to-back/Linkage	Back-to-back/Linkage is currently not supported for 6-series account clients.	Back-to-back/linkage cannot be offered to CEU clients.
Multi-Market Securities	Clients can reach additional counterparties via remote codes.	Not offered in CEU/T2S .
Allegements	Clients can receive allegements from domestic counterparties.	Clients that are using one Clearstream connectivity can receive allegements from domestic counterparties with the activation from the November 2026 release

2.1.2 Asset Servicing

In the following section the as-is situation on 6-series accounts and to-be situation on CEU accounts for Swedish securities are compared to highlight the differences in available services.

Please note that the Transaction Management rules described below apply to all transactions except for those cleared by Eurex Clearing AG. For transactions cleared by Eurex Clearing AG, the “Reinstruction” for transformations is “Yes”.

Corporate Actions Services

Corporate Action notification / entitlement forecast

The standard OneClearstream process for corporate action notification and entitlement forecast applies.

Please note that COAF is not reported as not provided by the market.

Decision management

The standard OneClearstream process for client instructions during corporate action events applies.

Payment management/reversals

The standard OneClearstream process applies.

Market claims and reverse market claims

Process	Applicability
Detection	Yes

Auto FX Service	Yes

2.1.3 Tax

For further guidance on the eligibility to tax relief and applicable certification process, please refer to Announcement [Link to be inserted as soon as available]. Please note that the tax process for Sweden is the same for both CBL and CEU.

2.1.4 Investment funds

Scope of activation

All investment funds ISIN codes - including Exchange-Traded Funds (ETFs) - that are in scope of this activation (the "Securities") will be published on the [Unified for New Opportunities rollout documentation](#) web page.

This activation wave covers:

- Domestically issued securities.

All ISINs within the defined scope will be made eligible for settlement in T2S, provided such eligibility has not already been established.

2.1.5 Collateral management

There will be no changes in collateral management programs on CmaX (no other Collateral programs impacted by this initiative) for the activation of the Swedish market in September 2026.

Further descriptions on impacts for collateral management published separately.

2.1.6 Lending

There will be no changes in lending programs for the activation of the Swedish market in September 2026.

2.2 Activation of the Polish market

This chapter outlines the changes that the activation of the Polish market will bring for CEU clients will be explained for all Clearstream products that are impacted by the overall initiative.

2.2.1 Settlement

Intra-CSD settlement

Intra-CSD settlement (CEU-CEU) of Polish securities in EUR will benefit from range of T2S settlement services (for example, partial settlement, hold and release) like any other T2S securities. Also, the T2S existing settlement timelines will apply.

Cash in EUR will settle in central bank money (CeBM) via DCA account and cash in non-EUR will settle in commercial bank money (CoBM) via 6-series account until Unified for New Opportunities final migration or via CBL account afterwards. Please be aware that partial settlement is not available for both delivery and receipt in non-EUR currency.

Cross-CSD settlement

Clearstream is working in enabling other T2S-CSDs to appoint CEU as technical Issuer CSD for all securities in the scope of this initiative. However, this functionality is not yet available. Therefore, there will be no cross-CSD settlement with the activation of the market.

External-CSD settlement

External settlement with CBL counterparty

External-CSD settlement (CEU-CBL) for Polish securities will follow the already applicable standards for ISINs active on the CEU-CBL link. Kindly refer to the Activation principles section for the new opportunity to identify the ISINs. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - International \(CEU\)](#).

External settlement with EB (Euroclear Bank) counterparty

External-CSD settlement (CEU-CBL-EB) for Polish securities will follow the already applicable standards for ISINs active on the CEU-CBL-EB link. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL-EB link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - Bridge](#) Please note that only T-bonds and T-bills are bridge eligible.

External-CSD settlement with a domestic Polish counterparty

External-CSD settlement with a domestic Polish counterparty via enhanced CEU-CBL-Domestic link will be available with the activation of the Polish market in September 2026.

The following table compares the As-Is functionalities on 6-series accounts and To-Be functionalities on CEU accounts for external CSD settlement for Polish securities with a domestic Polish counterparty. For instruction examples, please refer to the Appendix.

Service	As-is on 6-series account	To-be on CEU with domestic counterparty
Settlement – Free of Payment and Versus Payment	<p>FOP and versus payment settlement is supported for 6-series account clients for Polish Market.</p> <p>Eligible settlement currency for Polish market: Polish Zloty (PLN); Euro (EUR) only for EUR denominated mortgage bonds.</p>	<p>FOP and versus payment settlement will be supported for CEU clients for the Polish market.</p> <p>Eligible settlement currency for the Polish market: Polish Zloty (PLN); Please note that (EUR) will not be an eligible settlement currency.</p>
Hold and Release	Not offered.	Not offered.
Immediate Release	Immediate Release mechanism is supported for 6-series account clients.	Immediate release is not compatible with T2S (therefore it will not be offered)
Partial Settlement	<p>KDPW: Yes, NBP: No</p> <p>Not offered for securities held at NBP (T-Bills).</p> <p>Offered for securities held at KDPW.</p>	Partial settlement will not be offered to CEU clients.
Cash Penalty	Cash penalties received from the domestic market are forwarded to the 6-series account client	Cash penalties received from the domestic market will be forwarded to the 6-series account client.
Back-to-back/Linkage	Back-to-back/linkage is not offered to 6-series account clients.	Back-to-back/linkage will not be offered to CEU clients.

2.2.3 Tax

For further guidance on the eligibility to tax relief and applicable certification process, please refer to Announcement (Tax announcement) and the Market Taxation Guide – Poland. Please note that the tax process for Poland is the same for both CBL and CEU.

2.2.4 Investment funds

For investment fund securities, Poland is market without a CSD link. Therefore, it is not considered for domestic market activation in Wave 3.

2.2.5 Collateral management

There will be no changes in collateral management programs on CmaX (no other Collateral programs impacted by this initiative) for the activation of the Polish market in September 2026.

Further descriptions on impacts for collateral management published separately.

2.2.6 Lending

There will be no changes to the lending programs related to the activation of the Polish market in September 2026.

2.3 Activation of the Mexican market

This section outlines the changes that the activation of the Mexican market will bring for CEU clients for all Clearstream products, that are impacted by the overall initiative.

2.3.1 Settlement

Intra-CSD settlement

Intra-CSD settlement (CEU-CEU) of Mexican securities in EUR will benefit from range of T2S settlement services (for example, partial settlement, hold and release) like any other T2S securities. Also, the T2S existing settlement timelines will apply.

Cash in EUR will settle in central bank money (CeBM) via DCA account and cash in non-EUR will settle in commercial bank money (CoBM) via 6-series account until the Unified for New Opportunities final migration or via CBL account afterwards. Please be aware that partial settlement is not available for both delivery and receipt in non-EUR currency.

Cross-CSD settlement

Clearstream is working in enabling other T2S-CSDs to appoint CEU as technical Issuer CSD for all securities in the scope of this initiative. However, this functionality is not yet available. Therefore, there will be no cross-CSD settlement with the activation of the market.

External-CSD settlement

External settlement with CBL counterparty

External-CSD settlement (CEU-CBL) for Mexican securities will follow the already applicable standards for ISINs active on the CEU-CBL link. Kindly refer to the Activation principles section for the new opportunity to identify the ISINs. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - International \(CEU\)](#).

External settlement with EB (Euroclear Bank) counterparty

External-CSD settlement (CEU-CBL-EB) for Mexican securities will follow the already applicable standards for ISINs active on the CEU-CBL-EB link. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL-EB link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - Bridge](#).

External-CSD settlement with a domestic Mexican counterparty

External-CSD settlement with a domestic Mexican counterparty via enhanced CEU-CBL-Domestic link will be available with the activation of the Mexican market in September 2026.

Transaction amounts, in accordance with domestic market practice, are expressed in units for Mexican debt securities, typically represent nominal values of MXN 10 (CETES), MXN 100 (Ajustabonos, BONDES, UDIBONOS) or USD 1000 (Tesobonos).

The following table compares the As-Is functionalities on 6-series accounts and To-Be functionalities on CEU accounts for external CSD settlement for Mexican securities with a domestic Mexican counterparty. For instruction examples, please refer to the Appendix.

Service	As-is on 6-series account	To-be on CEU with domestic Counterparty
Settlement – Free of Payment and Versus Payment	FOP and Versus Payment settlement is supported for 6-series account clients for the Mexican market. Eligible settlement currency for the Mexican market: Mexican Peso (MXN)	FOP and Versus Payment settlement will be supported for CEU clients for the Mexican market. Eligible settlement currency for the Mexican market: Mexican Peso(MXN)
Hold and Release	When the instruction is sent to the domestic market, the client cannot put it back on hold.	When the instruction is sent to the domestic market, the client cannot put it back on hold.
Immediate Release	Immediate Release mechanism is supported for 6-series account clients.	Immediate release is not compatible with T2S (therefore it will not be offered)
Partial Settlement	Partial settlement is not offered to 6-series account clients.	Partial settlement will not be offered to CEU clients.
Cash Penalty	Cash penalties are not applicable on the Mexican domestic market.	Cash penalties are not applicable on the Mexican domestic market.
Back-to-back/Linkage	Back-to-back/linkage is not offered to 6-series account clients.	Back-to-back/linkage will not be offered to CEU clients.
Multi-markets Securities	Client can reach additional counterparties via remote codes	Not offered in CEU/T2S.
Allegements	Not offered	Not offered

2.3.2 Asset Servicing

In the following section the As-Is situation on 6-series accounts and To-Be situation on CEU accounts for Mexican securities are compared to highlight the differences in available services.

Corporate Action Services

Corporate Action notification / entitlement forecast

The standard OneClearstream process for corporate action notification and entitlement forecast applies.

Please note that COAF is not reported as not provided by the market.

CA Notification for Multi-listed securities is offered for CBL and CEU clients.

Decision management

The standard OneClearstream process for client instructions during corporate action events applies.

Payment management/reversals

The standard OneClearstream process applies.

Market claims and reverse market claims

Shareholders Identification Disclosure services (SID)

Not applicable on Mexican securities.

Miscellaneous

	To-be on CEU
Sale and purchase of rights	No
Markdown service	Yes
Auto FX Service	Yes

2.3.3 Tax

No tax service is offered by Clearstream on the Mexican Market.

2.3.4 Investment funds

For investment fund securities, Mexico is considered a Register market without a CSD link. Exchange-Traded Funds (ETFs) are not permitted and cannot be traded within the Mexico market. Therefore, it is not considered for domestic market activation in Wave 3.

2.3.5 Collateral management

There will be no changes in collateral management programs on CmaX (no other Collateral programs impacted by this initiative) for the activation of the Mexican market in September 2026.

Further descriptions on impacts for collateral management published separately.

2.3.6 Lending

There will be no changes to the lending programs related to the activation of the Mexican market in September 2026.

2.4 Activation of the New Zealand market

This chapter outlines the changes that the activation of the New Zealand market will bring for CEU clients for all Clearstream products that are impacted by the overall initiative.

2.4.1 Settlement

Intra-CSD settlement

Intra-CSD settlement (CEU-CEU) of New Zealand securities in EUR will benefit from range of T2S settlement services (for example, partial settlement, hold and release) like any other T2S securities. Also, the T2S existing settlement timelines will apply.

Cash in EUR will settle in central bank money (CeBM) via DCA account and cash in non-EUR will settle in commercial bank money (CoBM) via 6-series account until the Unified for New Opportunities final migration or via CBL account afterwards. Please be aware that partial settlement is not available for both delivery and receipt in non-EUR currency.

Cross-CSD settlement

Clearstream is working in enabling other T2S-CSDs to appoint CEU as technical Issuer CSD for all securities in the scope of this initiative. However, this functionality is not yet available. Therefore, there will be no cross-CSD settlement with the activation of the market.

External-CSD settlement

External settlement with CBL counterparty

External-CSD settlement (CEU-CBL) for New Zealand securities will follow the already applicable standards for ISINs active on the CEU-CBL link. Kindly refer to the Activation principles section for the new opportunity to identify the ISINs. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - International \(CEU\)](#).

External settlement with EB (Euroclear Bank) counterparty

External-CSD settlement (CEU-CBL-EB) for New Zealand securities will follow the already applicable standards for ISINs active on the CEU-CBL-EB link. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL-EB link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - Bridge](#).

External-CSD settlement with a domestic New Zealand counterparty

External-CSD settlement with a domestic New Zealand counterparty via enhanced CEU-CBL-Domestic link will be available with the activation of the New Zealand market in September 2026.

The following table compares the As-Is functionalities on 6-series accounts and To-Be functionalities on CEU accounts for external CSD settlement for New Zealand securities with a domestic New Zealand counterparty. For instruction examples, please refer to Appendix.

Service	As-Is on 6-series account	To-Be on CEU with domestic Counterparty
Settlement – Free of Payment and Versus Payment	FOP and Versus Payment settlement is supported for 6-series account clients for New Zealand Market. Auto FX Service	Yes

2.4.3 Tax

For further guidance on the eligibility to tax relief and applicable certification process, please refer to Announcement (Tax announcement) and the Market Taxation Guide – New Zealand. Please note that the tax process for New Zealand is the same for both CBL and CEU.

2.4.4 Investment funds

Scope of activation

All investment funds ISIN codes - including Exchange-Traded Funds (ETFs) - that are in scope of this activation (the "Securities") will be published on the [Unified for New Opportunities rollout documentation](#) web page.

This activation wave covers:

- Domestically issued securities.

All ISINs within the defined scope will be made eligible for settlement in T2S, provided such eligibility has not already been established.

2.4.5 Collateral management

There will be no changes in collateral management programs on CmaX (no other Collateral programs impacted by this initiative) for the activation of the New Zealand market in September 2026.

Further descriptions on impacts for collateral management published separately.

2.4.6 Lending

There will be no changes to the lending programs related to the activation of the New Zealand market in September 2026.

2.5 Activation of the Czech Republic market

This section outlines the changes that the activation of the Czech Republic market will bring for CEU clients for all Clearstream products that are impacted by the overall initiative.

Clients participating in new government bond auction must submit a receipt against payment instruction to CBL by 14:00 on SD-1 using Immediate Release (IREL), including the required settlement details (Czech National Bank as Delivering Agent, CDCP as Place of Settlement, "Primary Auction" narrative, SETR//PLAC, and primary dealer BIC). As these requirements cannot be fulfilled by CEU, the service is available only through a CBL account.

2.5.1 Settlement

Intra-CSD settlement

Intra-CSD settlement (CEU-CEU) of Czech Republic securities in EUR will benefit from range of T2S settlement services (for example, partial settlement, hold and release) like any other T2S securities. Also, the T2S existing settlement timelines will apply.

Cash in EUR will settle in central bank money (CeBM) via DCA account and cash in non-EUR will settle in commercial bank money (CoBM) via 6-series account until the Unified for New Opportunities final migration or via CBL account afterwards. Please be aware that partial settlement is not available for both delivery and receipt in non-EUR currency.

Cross-CSD settlement

Clearstream is working in enabling other T2S-CSDs to appoint CEU as technical Issuer CSD for all securities in the scope of this initiative. However, this functionality is not yet available. Therefore, there will be no cross-CSD settlement with the activation of the market.

External-CSD settlement

External settlement with CBL counterparty

External-CSD settlement (CEU-CBL) for Czech Republic securities will follow the already applicable standards for ISINs active on the CEU-CBL link. Kindly refer to the Activation principles section for the new opportunity to identify the ISINs. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - International \(CEU\)](#).

External settlement with EB (Euroclear Bank) counterparty

External-CSD settlement (CEU-CBL-EB) for Czech Republic securities will follow the already applicable standards for ISINs active on the CEU-CBL-EB link. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL-EB link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - Bridge](#). Please note that equities, exchange traded funds and CSD-eligible open-ended funds are not bridge eligible.

External-CSD settlement with a domestic Czech Republic counterparty

External-CSD settlement with a domestic Czech Republic counterparty via enhanced CEU-CBL-domestic link will be available with the activation of the Czech Republic market in September 2026.

The following table compares the As-Is functionalities on 6-series accounts and To-Be functionalities on CEU accounts for external CSD settlement for Czech Republic securities with a domestic Czech Republic counterparty. For instruction examples, please refer to Appendix.

Service	As-is on 6-series account	To-be on CEU with domestic Counterparty
Settlement – Free of Payment and Versus Payment	<p>FOP and versus payment settlement is supported for 6-series account clients for Czech Republic Market.</p> <p>Eligible settlement currency for Czech Republic market: Czech Koruna (CZK) and Euro (EUR) for T-Bills and T-Bonds (government bonds)</p>	<p>FOP and versus payment settlement will be supported for CEU clients for the Czech Republic market.</p> <p>Eligible settlement currency for Czech Republic market: Czech Koruna (CZK). Please note that (EUR) will not be an eligible settlement currency.</p>
Hold and Release	Not offered.	Not offered.
Immediate Release	Immediate Release mechanism is supported for 6-series account clients.	Immediate release is not compatible with T2S (therefore it will not be offered)
Partial Settlement	<p>CDCP: Yes, SKD: No</p> <p>Not offered for deliveries. Offered for receipts.</p>	Not offered.
Cash Penalty	Cash penalties received from the domestic market are forwarded to the 6-series account client.	Cash penalties received from the domestic market will be forwarded to the 6-series account client.
Back-to-back/Linkage	Back-to-back/Linkage is currently supported for 6-series account clients.	Back-to-back/linkage cannot be offered to CEU clients.
Multi-markets Securities	Clients can reach additional counterparties via remote codes	Not offered in CEU/T2S.
Allegements	Clients can receive allegements from domestic counterparties.	Clients that are using one Clearstream connectivity can receive allegements from domestic counterparties with the activation from the November 2026 release

2.5.2 Asset Servicing

In the following section the As-Is situation on 6-series accounts and To-Be situation on CEU accounts for Czech Republic securities are compared to highlight the differences in available services.

Corporate Action Services

Corporate Action notification / entitlement forecast

The standard OneClearstream process for corporate action notification and entitlement forecast applies.

Please note that COAF is supported by Depository.

CA Notification for multi-listed securities is offered for CBL and CEU clients.

Decision management

The standard OneClearstream process for client instructions during corporate action events applies.

Payment management/reversals

The standard OneClearstream process applies.

2.5.3 Tax

For further guidance on the eligibility to tax relief and applicable certification process, please refer to Announcement (Tax announcement) and the Market Taxation Guide – Czech Republic. Please note that the tax process for Czech Republic is the same for both CBL and CEU.

2.5.4 Investment funds

Scope of activation

All investment funds ISIN codes - including Exchange-Traded Funds (ETFs) - that are in scope of this activation (the "Securities") will be published on the [Unified for New Opportunities rollout documentation](#) web page.

This activation wave covers:

- Domestically issued securities.

All ISINs within the defined scope will be made eligible for settlement in T2S, provided such eligibility has not already been established.

2.5.5 Collateral management

There will be no changes in collateral management programs on CmaX (no other Collateral programs impacted by this initiative) for the activation of the Czech Republic market in September 2026.

Further descriptions on impacts for collateral management published separately.

2.5.6 Lending

There will be no changes to the lending programs related to the activation of the Czech Republic market in September 2026.

2.6 Activation of the Hong Kong market (Hong Kong Securities)

This chapter outlines the changes that the activation of the Hong Kong market will bring for CEU clients for all Clearstream products that are impacted by the overall initiative.

2.6.1 Settlement

Intra-CSD settlement

Intra-CSD settlement (CEU-CEU) of Hong Kong securities in EUR will benefit from range of T2S settlement services (for example, partial settlement, hold and release) like any other T2S securities. Also, the T2S existing settlement timelines will apply.

Cash in EUR will settle in central bank money (CeBM) via DCA account and cash in non-EUR will settle in commercial bank money (CoBM) via 6-series account until the Unified for New Opportunities final migration or via CBL account afterwards. Please be aware that partial settlement is not available for both delivery and receipt in non-EUR currency.

Cross-CSD settlement

Clearstream is working in enabling other T2S-CSDs to appoint CEU as technical Issuer CSD for all securities in the scope of this initiative. However, this functionality is not yet available. Therefore, there will be no cross-CSD settlement with the activation of the market.

External-CSD settlement

External settlement with CBL counterparty

External-CSD settlement (CEU-CBL) for Hong Kong securities will follow the already applicable standards for ISINs active on the CEU-CBL link. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - International \(CEU\)](#).

External settlement with EB (Euroclear Bank) counterparty

External-CSD settlement (CEU-CBL-EB) for Hong Kong securities will follow the already applicable standards for ISINs active on the CEU-CBL-EB link. Kindly refer to the Activation principles section for the new opportunity to identify the ISINs. Also, the instructions will follow the same logic as the ISINs already activated on the CEU-CBL-EB link. For instruction examples please refer to the Appendix of [Unified for New Opportunities Detailed Functional Specifications](#) where the instructions are explained for the different connectivity channels. For further information, please refer to the [Market Link Guide - Bridge](#).

External-CSD settlement with a domestic Hong Kong counterparty

External-CSD settlement with a domestic Hong Kong counterparty via enhanced CEU-CBL-Domestic link will be available with the activation of the Hong Kong market in September 2026.

The following table compares the As-Is functionalities on 6-series accounts and To-Be functionalities on CEU accounts for external CSD settlement for Hong Kong securities with a domestic Hong Kong counterparty. For instruction examples, please refer to the Appendix.

Service	As-is on 6-series account	To-be on CEU with domestic counterparty
Settlement – Free of Payment and Versus Payment	<p>FOP and Versus Payment settlement is supported for 6-series account clients for Hong Kong Market.</p> <p>Eligible settlement currency for Hong Kong market: Hong Kong Dollar (HKD), Chinese Renminbi (RMB)</p>	<p>FOP and Versus Payment settlement will be supported for CEU clients for the Hong Kong market.</p> <p>Eligible settlement currency for Hong Kong market: Hong Kong Dollar (HKD), Chinese Renminbi (RMB)</p>
Hold and Release	Not offered	Not offered
Immediate Release	Immediate Release mechanism is supported for 6-series account clients.	Immediate release is not compatible with T2S (therefore it is not offered)
Partial Settlement	Not offered	Not offered
Cash Penalty	CSDR Cash penalties are not applicable for this market. Failure of stock delivery might potentially incur buy-in penalties.	CSDR Cash penalties are not applicable for this market. Failure of stock delivery might potentially incur buy-in penalties.
Back-to-back/Linkage	Back-to-back/Linkage is currently supported for 6-series account clients.	Back-to-back/linkage cannot be offered to CEU clients.
Multi-markets Securities	Client can reach additional counterparties via remote codes.	Not offered in CEU/T2S .
Allegements	Client can receive allegements from domestic counterparties.	Clients that are using one Clearstream connectivity can receive allegements from domestic counterparties with the activation from the November 2026 release
Stamp Duty	Ad valorem stamp duty applies to transactions involving a change in beneficial ownership at 0.1% per party for buy/sell transactions (0.2% for transfers/FOP), must be paid within the prescribed timelines under the Stamp Duty Ordinance, is the investor's responsibility, and late payment may result in significant penalties; for exchange trades the duty is collected and remitted by the broker on settlement date.	Ad valorem stamp duty applies to transactions involving a change in beneficial ownership at 0.1% per party for buy/sell transactions (0.2% for transfers/FOP), must be paid within the prescribed timelines under the Stamp Duty Ordinance, is the investor's responsibility, and late payment may result in significant penalties; for exchange trades the duty is collected and remitted by the broker on settlement date.
Real-time gross settlement	<p>CCASS: To settle in real time, the client must specify "YRTG". If "YRTG" is not specified, the instruction will automatically settle during the intra-day batches.</p> <p>If the client specifies YRTG, which is a matching criterion in the instruction, the counterparty must also match otherwise the transaction will be unmatched and ultimately fails on SD.</p>	<p>The instructions on CCASS eligible securities will only settle during intra-day batches and not real-time.</p> <p>RTGS flag is supported only for T2S DCP.</p>

2.6.2 Asset Servicing

In the following section the As-Is situation on 6-series accounts and To-Be situation on CEU accounts for Hong Kong securities are compared to highlight the differences in available services. Corporate Action Services

Corporate Action notification / entitlement forecast

The standard OneClearstream process for corporate action notification and entitlement forecast applies.

Please note that COAF is supported by Depository.

CA Notification for Certification events and multi-listed securities is offered for CBL and CEU clients.

Decision management

The standard OneClearstream process for client instructions during corporate action events applies.

Payment management/reversals

The standard OneClearstream process applies.

Market claims and reverse market claims

Process	Applicability
Detection	Yes
Compensation	Yes – Equities only

Features	As-is on 6-series account	To-be on CEU
Eligible corporate action events - Detection	All distribution events	All distribution events
Eligible corporate action events - Compensation	Equity distribution events only	Equity distribution events only
Detection period	20 T2S opening days after the record date	20 T2S opening days after the record date
Eligible transactions detection	Internal: as of status matched External: as of status unmatched	Internal: as of status matched External: as of status unmatched
Eligible transactions compensation	All of status settled	All of status settled
Detection key dates	Securities in units: - Ex date; - Trade date; - Record date; - Effective settlement date. Securities in nominal: - Record date; - Intended settlement date; - Effective settlement date.	Securities in units: - Ex date; - Trade date; - Record date; - Effective settlement date. Securities in nominal: - Record date; - Intended settlement date; - Effective settlement date.
Opt-out/Ex/Cum indicator	No/No/No	No/No/No
Characteristics of market claims/reverse market instructions	Subject to standard processing/formatting. Indicator – Hold/Release is supported. Indicators are not supported (Opt-out, Ex, Cum, Partial Settlement). Compensations on domestic transactions are processed upon confirmation from the market and as cash/securities booking on the 6-series accounts.	Subject to standard processing/formatting. Indicator – Hold/Release is supported. Indicators are not supported (Opt-out, Ex, Cum, Partial Settlement). Compensations on domestic transactions are processed upon confirmation from the market and as cash/securities booking on the CBL accounts for non T2S-eligible proceeds. T2S eligible proceeds will be paid on the CEU account.
Tax status of claims	Net basis	Net basis

Market claims and reverse market claims on CEU OneClearstream client transactions

	Internal (CBL-CBL; CEU-CEU)	External-CSD (CEU-CBL)	Cross-CSD (CEU – T2S C/P)	External (CBL-EB C/P, CEU-EB C/P)	External (CBL-Domestic C/P, CEU-Domestic C/P)
Detection	Yes	Yes	N/A	Yes	Yes
Compensation	Yes	Yes	N/A	No	Yes

Transformations

Process	Applicability	
Detection/Cancellation	Yes	
Reinstruction	No	

Features	As-Is on 6-series account	To-Be on CEU
Eligible corporate action events	All reorganisation events	All reorganisation events
Detection period	20 T2S opening days after the record date	20 T2S opening days after the record date
Eligible transactions	All as of status matched	All as of status matched
Detection key dates	Record Date	Record Date
Opt-out indicator	Yes	Yes
Characteristics of re-instructions due to transformations	Not applicable	Not applicable

Transformations on CEU OneClearstream client transactions

	Internal (CBL-CBL CEU-CEU)	External-CSD (CEU-CBL)	Cross-CSD (CEU- T2S C/P)	External (CBL-EB C/P, CEU-EB C/P)	External (CBL-Domestic C/P, CEU-Domestic C/P)
Detection/cancelation	Yes	Yes	N/A	Yes	Yes
Reinstruction	N/A	N/A	N/A	N/A	N/A

Buyer Protection

No Buyer Protection key dates provided in the market and no Buyer Protection service offered.

General Meeting Service

	As-is on 6-series account	To-be on CEU
Clearstream Service	Yes	Yes
Securities registration/de-registration for GM	No	No

Shareholders Identification Disclosure services (SID)

Not applicable on Hong Kong securities.

Miscellaneous

	To-be on CEU
Sale and purchase of rights	No
Markdown service	Yes
Auto FX Service	Yes

2.6.3 Tax

No tax service is offered by Clearstream on the Hong Kong market .

2.6.4 Investment funds

Scope of activation

All investment funds ISIN codes - including Exchange-Traded Funds (ETFs) - that are in scope of this activation (the "Securities") will be published on the [Unified for New Opportunities rollout documentation](#) web page.

This activation wave covers:

- Domestically issued securities.

All ISINs within the defined scope will be made eligible for settlement in T2S, provided such eligibility has not already been established.

2.6.5 Collateral management

There will be no changes in collateral management programs on CmaX (no other Collateral programs impacted by this initiative) for the activation of the Hong Kong market in September 2026.

Further descriptions on impacts for collateral management published separately.

2.6.6 Lending

There will be no changes to the lending programs related to the activation of the Hong Kong market in September 2026.

Glossary

Acronym or abbreviation	Description
OneCAS	OneClearstream Asset Servicing: Program to provide a harmonised environment for corporate action processing, in compliance with all the new European standards.
6-series	6-series account of Clearstream Europe AG
CEU - CBL Link	Settlement via the CEU omnibus 18757
COAF	Corporate Action Event Reference
CoSD	Conditional Securities Delivery (COSD): T2S logic that support settlement with the external platform
Creation	Settlement system of CBL
Cross-CSD settlement	CEU versus other T2S CSDs counterparties
DCP clients	Direct connected clients (T2S)
DOM	Domestic
EB	Euroclear Bank
External-CSD settlement	CEU versus counterparties in CBL, in EB, on the local market (outside of T2S)
FOP	Free of payment
ICP client	Indirect connected customer (T2S)
ICSDs	International Central Securities depository
Intra-CSD settlement	Settlement between two clients of the same CSD (CEU vs CEU or LuxCSD vs LuxCSD)
N/A	Not applicable
UCSA service	Underlying Customer Segregated Account Identifier (UCSA) service
SECOM	SECOM is a securities settlement system operated by SIX SIS AG
SSI	Standard Settlement Instruction
Vestima	Order Routing platform to provide a gateway to global funds solutions ranging from order routing, centralized delivery versus payment (DVP) settlement, safekeeping and asset servicing to collateral management.

Appendix

Instruction example

The following examples show the instruction formats for Domestic settlement with Sweden, Poland Mexico, New Zealand, Czech Republic and Hong Kong with the example MT542 (client) against MT540 (counterparty).

Regarding the usage of the common reference please note the following:

For instructions against domestic counterparties, the use of the common reference is optional but recommended, depending on the logic of the local market. The logic that currently applies to 6-series will also apply to CEU accounts.

The tables are sorted the following:

- A. Client instruction, ordered by the connectivity channel:
 - a) CASCADE via Swift (Legacy);
 - b) Xact via Swift (OneClearstream);
 - c) T2S DCP;
 - d) CASCADE Online (Legacy);
 - e) Xact Web Portal (OneClearstream).
- B. Counterparty instructions with UCSA Service subscribed.
- C. Counterparty instructions without UCSA Service subscribed;

When having subscribed to the UCSA service, the SSIs differ based on whether the UCSA account should be used or not. This can be indicated by using the identifier SETR//803.

Please be aware that the reference mandatory/optional refers to the provided information in the example and does not relate to the qualifier.

Depending on how many parties the client wants to use in their instructions, the usage of the identifier will follow the following logic.

- PSET ==> REAG
- PSET ==> REAG ==> BUYR
- PSET ==> REAG ==> RECU ==> BUYR
- PSET ==> REAG ==> REI1 ==> RECU ==> BUYR
- PSET ==> REAG ==> REI2 ==> REI1 ==> RECU ==> BUYR

A. Client instruction

a. CASCADE via Swift Delivery

- a) The Common Reference may be populated based on market practices and in coordination with local counterparties.
- b) To be included in the following cases:
- i. For Receive Free and Deliver Free transactions between customer proprietary accounts or between accounts of the same beneficiary held with different global custodians; or
 - ii. For Receive Free and Deliver Free transactions related to creation and cancellation of ADRs.
- c) If this field is populated, it must be populated with respective broker code account at Indeval for settlement and the counterparty's BIC will not be forwarded to the depository. Only the 4-digit respective broker code account at Indeval for settlement will be forwarded to the depository. (forwarded as 95R::REAG/INDE/XXXX where XXXX is 4-digit respective broker code account at Indeval for settlement)
If this field is not populated, the counterparty's BIC will be forwarded to the depository.
When trading foreign securities via the International Quotation System (SIC), Indeval's BIC or local code must be included in the respective field (:95P:) BIC: INDEMXXMM or with broker code 5200 (:95R:)

- d) For the settlement of transactions with foreign securities traded through the SIC, the BIC of depository at Indeval must be instructed in field :95P::RECU or DECU// and Account of depository at Indeval must be populated in field :97A::SAFE//1XXXX.
- e) Please note: If the SAFE field is filled, the UNKNOWN value must also be completed. Furthermore, if both SAFE and UNKNOWN are filled, then the RECU field is also required.
- f) For Receive Free and Deliver Free transactions related to securities lending, the following wording should be included: /LOANDIN/ or /LOANDOUT/
- g) Mandatory to optimise the matching process and to anticipate further improvements to pre-matching at CSD Prague.
