

ECMS - Triparty Collateral Management

Client Testing Registration Form

With this registration form, Clearstream Europe (CEU), Clearstream Banking S.A. (CBL) and LuxCSD S.A. intend to collect information for the preparation and setup of the Triparty Collateral Management client testing in ECMS.

The aim of this client testing phase is to ensure connectivity and a functional message exchange between Clearstream and its clients in ISO 15022 format for Triparty Collateral Management, including enhancements resulting from the implementation of SCoRE and ECMS.

After a successful registration, clients are encouraged to test their connectivity channel and verify their account setup as well as reporting setup in Xact Web Portal.

Clients wishing to participate in the testing must provide the completed Test Registration Form to:

ECMS.Programme@clearstream.com

By 31 August 2026

Registration forms received after this date can be processed on a best-effort basis only. In this case, Clearstream cannot guarantee that all submitted data will be reflected in the test environment at the beginning of the test period.

For more specific details about the test environment and for detailed description of test scenarios, please refer to the related test guide that will be published in due course.

Should you have further questions, please do not hesitate to contact us. Thank you very much in advance for your replies and support.

The information contained in this form will be processed internally with the aim of ensuring proper system setup, to allow the client to smoothly initiate the testing session.

Services and reports

Note that all intraday reports are run at 08:00, 11:00, 13:00 and 16:00, and real-time reports are automatically sent via STP (straight through processing).

For the Swift format (ISO 15022) and related information, refer to the Xact via Swift User Guide. Note that the current Swift format used is ISO 15022.

Please check (✓) the reports you wish to schedule and indicate in the comments if any particular setup must be applied.

Note: Triparty reports scheduled in the test environment cannot be received via email or file transfer. This functionality is only available in production. Reports must be downloaded in Xact Web Portal.
