Foreword

This guide (the “Reporting Guide”) describes the reporting features of the Clearstream Banking Securities Lending programme available through ClearstreamXact connectivity channels.

All documents mentioned and referenced in this guide can be found on the Clearstream website, www.clearstream.com, under Global Securities Financing.

All times shown in this guide are Central European Time (CET).

Legal aspects

The official document governing the ASL Programme is called Securities Lending and Borrowing Rules and prevails over this Reporting Guide where appropriate.

The official document governing the ASLplus Programme is called Securities Lending Principal Agreement and prevails over this Reporting Guide where appropriate.

Client Services

The daily administration of the CBL Securities Lending Programme is handled by a dedicated team in Luxembourg as follows:

Group telephone:	Luxembourg	+352-243-38112
Group fax:	Luxembourg	+352-243-38201
Group email	Fails lending	failslending@clearstream.com
Group email:	Strategic lending	strategiclending@clearstream.com
Swift address:	CEDELULL	

The operations centre is open from 08:30 to 18:30 Central European Time.

For further information about this reporting guide, or if you have specific questions regarding Clearstream Banking fails lending (ASL and ASL principal) and strategic lending (ASLplus), please contact your local Global Securities Financing Sales teams, as follows:

Group telephone:	London	+44-(0)20-7862-7626
	Luxembourg:	+352-243-36868
Group email	Fails lending	failslending@clearstream.com
Group email:	Strategic lending	strategiclending@clearstream.com

Alternatively, you can contact Client Services or your Relationship Officer.

The Clearstream Banking website is at www.clearstream.com.

CBL Securities Lending Programmes

This page has intentionally been left blank.

1. Introduction

Clearstream Banking offers clients a range of connectivity options for receiving lending and borrowing reports.

This Reporting Guide covers the CBL Securities Lending Programmes, namely ASL, ASLplus and ASL principal and details the differences in terms of reporting when deemed necessary. It provides a detailed description of each report related specifically to lending and borrowing and is intended not so much as a technical specification, but to highlight the reports available so that clients can then consult the relevant technical documents for the reporting service used.

For a general overview of reporting covering all products throughout Clearstream Banking, please consult our Client Handbook or refer to the appropriate documentation on our website, www.clearstream.com

Note: All the examples shown in tables throughout this Reporting Guide are for information purposes only and do not represent a commitment by Clearstream Banking.

1.1 Accounts used

There are two main Clearstream internal accounts used within the Automated Securities Lending programme (ASL). References to these accounts can be found in the examples in this document.

- 57711 - Standard loan account

This account is used to keep all lending anonymous. All ASL lent and borrowed securities use this counterparty account on loan openings and closings. All corporate action adjustments will pass through this transit account.

- 57767 - Securities collateral account

All collateral is transferred to and from this account for the purpose of blocking and unblocking of collateral on the main account.

There are two main Clearstream internal accounts used within the Automated Securities Lending programme (ASL principal) for the TARGET2-Securities (T2S) programme. References to these accounts can be found in the examples in this document.

- 57711 - Standard loan account

This account is used to keep all lending anonymous. All ASL principal lent and borrowed securities use this counterparty account on loan openings and closings. All corporate action adjustments will pass through this transit account.

- 57746 - Loan reservation account

All reservations are transferred to and from this account for the purpose of blocking and unblocking lender reservations on the main account.

There are two main Clearstream internal accounts used within the ASLplus programme. References to these accounts can be found in the examples in this document.

- 57711 - Standard loan account

This account is used to keep all lending anonymous. All ASLplus lent and borrowed securities use this counterparty account on loan openings and closings. All corporate action adjustments will pass through this transit account.

- 57746 - Loan reservation account

All reservations are transferred to and from this account for the purpose of blocking and unblocking lender reservations on the main account.

1.2 Connectivity media and channels

Clearstream Banking connectivity channels give clients real time access to enhanced information and transaction reporting. There is a choice of web browser, file transfer or the Swift network. It offers secure multichannel, ISO 15022 compliant connectivity to Clearstream Banking.

Clients can choose to use one or more of these communication media channels through ClearstreamXact:

- **ClearstreamXact**, is a suite of connectivity products that provides secure multi-channel connectivity access to our ICSD and CSD business, offering clients a choice of connections to:
 - **Xact Web Portal** is a web-browser based, user to application (U2A) connectivity channel based on proven, up-to-date portal technology. The harmonised security and user management streamline access to a range of services.
 - **Xact File Transfer**, the dedicated file transfer service via internet or SwiftNet FileAct, for the bulk transfer of transaction files and the download of large report information.
 - **Xact via Swift** provides ISO 15022 compliant messaging through the Swift network and provides clients with the ability to communicate with Clearstream via Swift FIN and the SwiftNet network.

1.3 Choice of reporting

Below are the report types that contain securities lending and borrowing activity information. These reports are described in detail in each dedicated chapter of this reporting guide.

When setting up an account, clients are recommended to specify the reports that they want to receive / retrieve. This specification can be performed for existing accounts by sending a Swift MT599 message, scheduling on Xact Web Portal or a letter signed by authorised signatories for the attention of the Connectivity Services Department in Luxembourg. For information about scheduling report on Xact Web Portal, please refer to the dedicated Xact Web Portal User Manual.

The table below specifies the channels to receive/retrieve the reports and the report formats that are available:

Report Type	SFCR	SLBC	MT535	MT536	MT54x
Channel					
File Transfer	✓	✓	✓	✓	✓
Swift network	✓ ^a		✓	✓	✓
Web browser			✓	✓	
Report format					
HTML			✓	✓	
PDF		✓	✓	✓	
ISO format			✓	✓	✓
XLS	✓	✓	✓	✓	
XML	✓	✓	✓	✓	
CSV			✓ ^b	✓ ^b	

- a. Only File Transfer, not ISO format
- b. Via Xact Web Portal web browser.

In addition to the reports above, Clearstream Banking also provides fee, collateral and corporate action reporting that are relevant to securities lending and borrowing.

2. Securities Lending and Borrowing Commissions

The Securities Lending and Borrowing Commissions Report (SLBCR) shows, per loan, the client's:

- Income generated as a lender; and /or
- Fees incurred as a borrower.

This report can be generated for frequencies: Daily, Weekly or Monthly and is available in PDF or XML format, detailing all loans (both closed and open) that have resulted in either income or fees (the commissions) in the period being reported (the "reporting period").

The report contains initial header information, a main body containing the commissions per loan information, plus a final summary page of totalled commissions. The report can be sorted by ISIN. The report is generated at the end of the Clearstream business day.

The summary pages of the SLBCR can have up to six pages depending upon instrument type, loan value currency and fee currency combinations that the report is covering.

The loan value and fee currencies for the different instrument types are as follows:

Instrument Type	Loan Value	Fee	Instrument Type	Loan Value	Fee
FIXED	USD	USD	NONFIXED	USD	USD
FIXED	EUR	EUR	NONFIXED	EUR	EUR
FIXED	USD	EUR	NONFIXED	USD	EUR

Reporting period

Each report includes commissions generated since the previous run of the report; therefore, the reported period will vary according to the frequency requested. The header of each report provides the dates of the reporting period covered by that specific report.

In general, the reporting periods are as follows:

- Daily: The report is generated each business day and covers a single business day, except for Mondays, where the report also includes commissions from the preceding weekend.
- Weekly: The report is generated each Friday and covers the seven-day period from the previous Monday to the forthcoming Sunday.
- Monthly: The report is generated on the last business day of the month and covers the whole calendar month; that is, the period from the 1st of the month to the last calendar day of that month (for example, 31 March, 30 April etc.).

The Daily and Weekly reporting periods are affected if the calendar end of month falls on the weekend. In such cases, the reporting period used in the Friday report (for both Daily and Weekly) is adjusted to go up to and include the last calendar day of the month and the subsequent report (Monday for Daily, and the following Friday for Weekly) will be adjusted so as to start from the 1st of the new month.

Please find following examples of PDF and XML formats.

2.1 Securities Lending and Borrowing Commissions Report - PDF

Reported attributes

The following fields are shown per loan:

- Security code: both ISIN and Common Code given;
- Security description;
- Loan type: ASL, ASL principal, DASL, ASLplus (STREET), TERM, EVERGREEN including indication of instrument type;
- Loan reference: CBL generated loan identifier;
- UTI: CBL generated "Unique Trade Identifier" for each loan. It is 52 characters long, the first 20 characters are the LEI of CBL followed by a combination of alphanumerics. The last 14 characters are CBL's timestamp in CET from when the UTI is created, given in "YYYYMMDDHHMMSS" format.
- Reference ID: for ASL/DASL, the client reference of the failed instruction that needed financing; for ASLplus, the client reference on the loan request; for ASL principal, the lending system reference related to the failed instruction (automatically generated by the lending system).
- Opening date: lending/borrowing start date;
- Closing date: lending/borrowing end date;
- Quantity: nominal amount lent/borrowed as used in the last "Commission - Current" calculation;
- Handling fee: administrative fee charged to the borrower when the loan was opened;
- Commission - Current: lending/borrowing income/fee per loan for the reporting period;
- Commission - Accrued: lending/borrowing income/fee per loan accrued from the loan's opening date;
- Loan value (USD): the calculated market value of "Quantity" for ASL loans, the automatically calculated value for ASL principal loans and the negotiated loan value for ASLplus loans;
- Security Price: for bonds, the latest available dirty price; for funds/equities, the price per unit with the ISO code of the issue currency;
- FX rate: exchange rate from the security's issue currency into USD;
- Rate: borrowing/lending fee rate used in the last "Commission - Current" calculation;
- Dividend Coupon Requirement: the borrower's dividend coupon requirement;
- Current commission start date: date from which the "Commission - Current" value relates;
- Current commission end date: date up to which the "Commission - Current" value relates;
- Market Value for Coll. Mgmt. Fee: The market value of the collateral pledged by the borrower for securing the ASL exposure. ASL loans only;
- Collateral Management Fee Rate: The rate used to calculate the collateral management fee. ASL loans only;
- Nominal variations: list of dates, quantities and commissions for cases where the quantity has fluctuated during the reporting period.

XML - Detailed description

Element	Attribute	Description
SecLendCommissRep		Root element of the report
Parent of: (CustRepOptSubscr, Acct, Per, StmtNbr, SecLendCommissRep.info?)		
	xmlld	Identifier of the generated XML
	tmstmp	Timestamp of generation of the XML
	repFreq	Reporting frequency: "DAILY", "WEEKLY", "MONTHLY"
	repMode	Reporting mode: always "COMPLETE"
	repActvFlg	Report activity flag: {"Y" if there was anything to report; otherwise, "N"}
CustRepOptSubscr, Acct, Per, StmtNbr		Standard elements, common for majority of Clearstream reports
SecLendCommissRep.info		Groups detail sections with the totals summarised; optional element, does not exist if there was nothing reported
Parent of: (XchgRate, SecLendCommiss.section+, TotCommissHdlgFee+)	incType	Type of security fee is coming from: "FIXED" (for example, bonds) or "NONFIXED" (for example, equities)
TotCommissHdlgFee	loanVallsoCurrCd	Currency code of the loan valuations: "USD" or "EUR"
Parent of: TotSecLendCommissDetl+, TotHdlgFee+, TotCollPldgSecLendCommissDetl+	feelsoCurrCd	Currency code of the fees: "USD" or "EUR"
XchgRate		Global exchange rate from USD to EUR (reported once per XML file)
	frstlsoCurrCd	From currency: "USD" (only given in Monthly report if fee currency is USD)
	recplsoCurrCd	Destination currency (EUR)
SecInstr	instrTyp	Type of security: "BOND", "EQUITY" or "FUND"
Parent of: (SecNm)	isinCd	ISIN code of security
	commonCd	Common Code of security
SecNm		Name of security
SecLendCommissDetl		Details of a single loan

Element	Attribute	Description
Parent of: (CounterpartyIdentifier?, LoanRef, UTI?, ExtRef?, LoanOpngDt, LoanClsgDt?, LoanQty, LoanVal, BondPrcAccrInt, XchgRate, FeeRate, HdlgFeeAmnt?, CurntCommissAmnt, AccrCommissAmnt, CurntCommissStartDt, CurntCommissEndDt, NomQtyVariatnInfo.List?)		
	loanTyp	Loan type group ("DASL", "ASL", "STREET", "ASLprincipal", "TERM" or "EVERGREEN")
	lenBorrInd	Client's role - loan lender ("SL") or borrower ("SB")
	streetChgd	"Y" / "N" flag indicating whether loan value or fee rate of a STREET loan has changed since the last report of the same frequency; always "N" for other loan types
LoanRef		CBL loan reference
UTI		CBL generated "Unique Trade Identifier" for each loan. It is 52 characters long, the first 20 characters are the LEI of CBL followed by a combination of alphanumerics. The last 14 characters are CBL's timestamp in CET from when the UTI is created, given in "YYYYMMDDHHMMSS" format.
ExtRef		External reference For "ASL"/"DASL" loans, the client reference of the failed instruction that needed financing For "STREET" (ASLplus) loans, the Client's reference on the initial loan request For "ASL principal" (ASL principal) loans, the lending system reference related to the failed instruction (automatically generated by the lending system). Only reported to the borrower
LoanOpngDt		Loan opening date (or start of contribution for lenders)
LoanClsgDt		Loan closing date; optional (only exists if loan has closed; or, for lenders, if they have ceased to contribute)
LoanQty		Instrument quantity
	qtyTyp	Quantity type ("FAMT", "UNIT", "AMOR")

CBL Securities Lending Programmes

Element	Attribute	Description
LoanVal		Loan value associated to the instrument quantity
	isoCurrCd	Currency in which the loan's value is expressed: "USD" or "EUR"
BondPrcAccrInt or UnitPrc	isoCurrCd	Latest available dirty price: % for bonds, unit price for equities/funds For UnitPrc only: Currency of the equity/fund price
XchgRate		Exchange rate from instrument's currency into USD or EUR on the day of reporting
	frstIsoCurrCd	Instrument's issue currency (bonds) or price currency (equities/funds)
	recplIsoCurrCd	Destination currency is loan value currency ("USD" or "EUR")
FeeRate		Fee rate used in the latest commission calculation
DivCoupReq		Dividend/Coupon requirement requested by borrower for managing loan (shown to the borrower only)
HdlgFeeAmnt		Administrative fee charged to the borrower when the loan was opened
	isoCurrCd	Currency of the handling fee: always "EUR" if reported
CurntCommissAmnt		Sum of fees/commissions over the reporting period (expressed as a negative number for borrowers)
	isoCurrCd	Currency of the current commission: "EUR" or "USD"
AccrCommissAmnt		Accrued fee/commission since the reported loan opening date (expressed as a negative number for borrowers)
	isoCurrCd	Currency of the accrued commission: "EUR" or "USD"
CollPldgMrktVal		For "ASL"/"DASL" borrowers only - Market value of the collateral pledged to this loan
	isoCurrCd	Currency of CollPldgMrktVal: only "USD" used
CollPldgFeeRate		For "ASL"/"DASL" borrowers only - Collateral management service fee rate as a percentage
CollPldgCurntCommissAmnt		For "ASL"/"DASL" borrowers only - Collateral management service fee amount today
	isoCurrCd	Currency of CollPldgCurntCommissAmnt: only "EUR" used

Element	Attribute	Description
CollPldgAccrCommissAmnt		For "ASL"/"DASL" borrowers only - Collateral management service fee amount accrued on loan to date
	isoCurrCd	Currency of CollPldgAccrCommissAmnt: only "EUR" used
CurntCommissStartDt		Date from which the "CurntCommissAmnt" value relates
CurntCommissEndDt		Date up to which the "CurntCommissAmnt" value relates
NomQtyVariatnInfo.List (NomQtyVariatnInfo+)		List of dates, quantities and commissions over the reporting period where the quantity has fluctuated
Parent of: (VariatnOpngDt, VariatnClsgDt, VariatnNomQty, VariatnCommissAmnt)		
VariatnOpngDt		The start date of a quantity fluctuation
VariatnClsgDt		The end date of a quantity fluctuation
VariatnNomQty		The quantity on which fees were calculated during the period given by "VariatnOpngDt" to "VariatnClsgDt"
	qtyTyp	Quantity type ("FAMT", "UNIT", "AMOR")
VariatnCommissAmnt		The part of the "CurntCommissAmnt" that accrued during the period given by "VariatnOpngDt" to "VariatnClsgDt"
	isoCurrCd	Currency of the accrued commission: "EUR" or "USD"
TotSecLendCommissDetl		Sum of fees/commissions and loan values for given attributes.
TotCollPldgSecLendCommissDetl		Sum of collateral management fees/commissions and loan values for given attributes.
Note: The report contains 18 such elements without any particular order. Not all combinations of attributes are reported (for example, lent-ASL-all statuses).		
Parent of: (LoanVal?, CurntCommissAmnt, AccrCommissAmnt)		
	lenBorrInd	Client's role - loan lender ("SL") or borrower ("SB")
	loanStatus	Loan status - "OPEN", "CLOSED", "ALL" or "ALL_CONV" (open and closed)
	loanTyp	Loan type group - "DASL", "ASL", "STREET", "ASLprincipal", or "ALL" (all loan type groups)

CBL Securities Lending Programmes

Element	Attribute	Description
LoanVal		Total value of reported loans
	isoCurrCd	Currency in which the loan's value is expressed: "EUR" or "USD"
CurntCommissAmnt		Total current fees/commissions of reported loans (expressed as a negative number for borrowers)
	isoCurrCd	Currency of current commissions total: "EUR" or "USD"
AccrCommissAmnt		Total accrued fees/commissions of reported loans (expressed as a negative number for borrowers)
	isoCurrCd	Currency of accrued commissions total: "EUR" or "USD"
TotHdlgFee		Total handling fees for given loan status (always expressed as a negative number)
	loanStatus	Loan status - "OPEN", "CLOSED", "ALL" or "ALL_CONV" (open and closed)
	isoCurrCd	Currency of handling fee total (only when currency is "EUR")

Important notes

In TotSecLendCommissDetl and in TotHdlgFee elements, in addition to loanStatus attribute values OPEN, CLOSE and ALL, ALL_CONV is used for the summary page of monthly reports, where fees are in USD. The element will contain the sum of fees in EUR using the end of month USD/EUR exchange rate.

The new optional sub-element XchgRate in TotCommissHdlgFee is only used in Monthly report if fees are in USD.

3. Securities Financing Collateral Report

3.1 Purpose

The Securities Financing Collateral Report is available for each lender contributing to at least one active Loan in any of the Automated Securities Lending programmes. The report gives an end-of-day snapshot of all in-flight loans with details provided of each loan to which they contribute (Principal details) and of all collateral pledged in their favour (collateral details).

The report is provided in subsections per lending product, each of which is terminated with subtotal information that provides an overview of the USD and EUR values of the lender's exposure from that product type versus the total USD and EUR values of the collateral pledged in their favour.

The report is always a complete report; no delta report is available.

3.2 Availability and format

The Securities Financing Collateral Report is available to lenders in XML format.

Subscription is mandatory and for lenders only. Each lender must specify the required frequency (Daily, Weekly or Monthly) and the destination address.

3.3 Content

The Securities Financing Collateral Report consists of a Report Header and a Report Body. The Report Body is subdivided by lending product and these subsections are each further subdivided by Principal details, Collateral details and Sub-totals, as follows:

- Report Header
- Report Body:
 - Lending product 1 section:
 - Principal details;
 - Collateral details;
 - Sub-total details;
 - Lending product 2 section:
 - Principal details;
 - Collateral details;
 - Sub-total details;
- etc.

Each report shows details in separate subsections for each of the products in which the lender is active. Each subsection provides details of each loan principal to which the lender has contributed that lending product, followed by details of each piece of collateral that has been allocated to them as coverage of their exposure in that lending product.

Subtotal information is provided at the end of each lending product subsection.

3.4 XML report specifications

Report file naming conventions

The file name sent by Xact File Transfer will follow the Clearstream file naming conventions:

Note: Clients who require a particular report for more than one account will receive an appropriate XML file for each account. Reports in XML format are not grouped.

The naming structure for XML report files is as follows:

ACCOUNT.CUSTOMERREPORTNAME.REPTYP.FREQ.MODE.ENDPERIOD.BDATE.GROUPID.XML

where:

ACCOUNT = Client account number (5 Digits).

CUSTOMERREPORTNAME = Client Report Name. The name input by the client at report subscription in Xact Web Portal (maximum 60 characters).

CUSTOMERREPORTNAME can contain only characters that are supported by UNIX file names.

REPTYP = Report type. This can have the following values: SFCR

FREQ = Report frequency. This can have the following values: DAILY, WEEKLY, MONTHLY,

MODE = Always: COMPLETE

ENDPERIOD = Business day processing time (HHMM) using a 24hr clock

BDATE = Business date (YYYYMMDD)

GROUPID = A number uniquely identifying the report subscription.

XML = File extension: fixed as XML

Report field descriptions

Note:

- Column "M/O" indicates whether an attribute is Mandatory and Optional and, when provided, the number of occurrences.
- All dates are given in YYYY-MM-DD format.
- All times are given in 24-hour HH:MM:SS format.
- The number of decimal places reported is mentioned in the Description column against each numeric.
- Insignificant decimals are not reported (for example, "1.000" is reported as "1").
- The Example column contains values from the first lending product that appears in the file example enclosed later. Attributes that are not applicable for the respective lending product are shown in italics.

CBL Securities Lending Programmes

Report Header

Sequence/Tag	Attribute	M/O	Example	Description
1	SecFinCollRep	M(1)		Root element of report:
	repActvFlg	M(1)	"Y"	Report activity flag. Possible values: "Y"; "N"
	xmlld	M(1)	"301662172"	Unique Identifier of all generated XML
	repFreq	M(1)	"DAILY"	Reporting frequency. Possible values: "DAILY"; "WEEKLY"; "MONTHLY"
	repMode	M(1)	"COMPLETE"	Reporting mode - only ever "COMPLETE"
	tmstmp	M(1)	"2007-12-05T14:53:33"	Report generation time stamp
1.1	CustRepOptSubscr	M(1)		Subscription options: (these are all Technical attributes)
	tmplld	M(1)	"2231901"	Template identifier
	schedld	M(1)	"2300914"	Schedule identifier
	sumryRepFlg	M(1)	"N"	Report can contain summary information - only ever "N"
	borrRepFlg	M(1)	"N"	Report can contain borrower view information - only ever "N"
	lendRepFlg	M(1)	"Y"	Report can contain lender view information - only ever "Y"
	loanPrncDctlRepFlg	M(1)	"Y"	Report can contain principal details. Possible values: "Y"; "N"
	loanCollDctlRepFlg	M(1)	"Y"	Report can contain collateral details. Possible values: "Y"; "N"
	tmplDctlld	M(1)	"2272514"	Template details identifier
	subtotRepFlg	M(1)	"Y"	Report can contain subtotal information - only ever "Y"
1.1.1	RepSubscrNm	O(0,1)	Securities Financing Collateral Report	Report name - as specified by the client in Xact Web Portal
1.2	Per	M(1)		Report generation information section:
1.2.1	PerStart	M(1)		Period start information:
	busEvnt	M(1)	"DTP"	Start business event of reporting period - only ever "DTP"
	busTime	M(1)	"19:30:00"	Report generation start time stamp
	dT	M(1)	"2007-09-03"	Report generation start date
1.2.2	PerEnd	M(1)		Period end information:
	busEvnt	M(1)	"DTP"	End business event of reporting period - only ever "DTP"
	busTime	M(1)	"19:30:00"	Report generation end time stamp
	dT	M(1)	"2007-09-04"	Report generation end date
1.3	StmntNbr	M(1)		Unique number identifying the lender report of the client

Report Body

Sequence/Tag	Attribute	M/O	Example	Description
2	PartLoanProduct.section	O(0,n)		Participant section:
	lenBorrInd	M(1)	"SL"	Client's role - only ever "SL"
2.1	Acct	M(1)		Lender's account details:
2.1.1	AcctId	M(1)	12345	Account number
	acctOrig	M(1)	"CBL"	Origin of the account - only ever "CBL"
2.1.2	AcctNm	M(1)	SOME BANK PLC-FIXED INCOME	Name of the account

Lending product

Sequence/Tag	Attribute	M/O	Example	Description
2.2	LoanProduct.section	M(1,n)		Lending product: (repeated for each applicable lending product)
	loanProductTyp	M(1,4)	"ASLplus"	Lending product type. Possible values: "ASLguaranteed"; "ASLplus"; "ASLsecured"; "DASL"; "ASLprincipal" Note: Those lending products where the lender is eligible to lend are always reported. If the lender has no activity in an eligible product, the section is still provided but with zero subtotals.

Principal details

Sequence/Tag	Attribute	M/O	Example	Description
2.2.1	LoanPrnc.list	O(0,1)		List of lent principal pieces: (repeated for each lent principal)
2.2.1.1	LoanPrncDetl	M(1,n)		Lent principal piece details:
	instrTyp	M(1)	"BOND"	Instrument type of principal. Possible values: "BOND"; "EQUITY"; "FUND"
	loanTypRep	M(1)	"ASLplus-bnd"	Reported loan type code. Possible values: "ASLguaranteed"; "ASLplus-bnd"; "ASLplus-equ"; "ASLsecured"; "DASLsecured"; "ASLprincipal-bnd"; "ASLprincipal-equ"; "TERM-bnd"; "TERM-equ"; "EVERGREEN-bnd"; "EVERGREEN-equ"
	isoCurrCd	M(1)	"EUR"	ISO currency code principal security was issued in
2.2.1.1.1	LoanRef	M(1)	LM45722	CBL loan reference
2.2.1.1.2	UTI	M(1)	5493000L514RA0SXJJ440L00000257711D2S6020190430150021	CBL generated "Unique Trade Identifier" for each loan. It is 52 characters long, the first 20 characters are the LEI of CBL followed by a combination of alphanumerics. The last 14 characters are CBL's timestamp in CET from when the UTI is created, given in "YYYYMMDDHHMMSS" format.
2.2.1.1.3	LoanOpngDt	M(1)	2007-08-31	Start date of the loan
2.2.1.1.4	BorrAcct	O(0,1)		Borrower account: Not populated for undisclosed loan types: "ASLsecured" and "ASLguaranteed".

CBL Securities Lending Programmes

Sequence/Tag	Attribute	M/O	Example	Description
2.2.1.1.4.1	Acct	M(1)		Account details:
2.2.1.1.4.1.1	AcctId	M(1)	57711	Account number
	acctOrig	M(1)	"CBL"	Origin of the account - only ever "CBL"
2.2.1.1.4.1.2	AcctNm	M(1)	CBL STANDARD LOAN ACCOUNT	Name of the account
2.2.1.1.5	SecInstr	O(0,1)		Principal's security details:
	isinCd	O(1)	"XS0193640629"	Security's ISIN code
	commonCd	M(1)	"000019364062"	Security's Common code
2.2.1.1.5.1	SecNm	M(1)	EUR 4,875 HBOS TREAS.SERV.PLC 04-2019	Security's descriptive name
2.2.1.1.6	ResidualFact	M(1)	1	The residual factor (also known as "pool factor"). Percentage expressed in decimals (for example, 1 = 100%), rounded to 6 decimal places
2.2.1.1.7	NomQty	M(1)	900000	Nominal amount lent of the security, rounded to 2 decimal places
2.2.1.1.8	XchgRate	M(1)	1.3646	FX rate from security's issue currency to USD, rounded to 6 decimal places
	frstIsoCurrCd	M(1)	"EUR"	ISO currency code principal security was issued in
	recplsoCurrCd	M(1)	"USD"	ISO currency of conversion: "USD"
2.2.1.1.9	XchgRate	M(1)	1	FX rate from security's issue currency to EUR, rounded to 6 decimal places
	frstIsoCurrCd	M(1)	"EUR"	ISO currency code principal security was issued in
	recplsoCurrCd	M(1)	"EUR"	ISO currency of conversion: "EUR"
2.2.1.1.10	MrktPrc	M(1)	102.3144	Current market price: The "dirty" price of the security (that is, clean price adjusted by any applicable accrued interest and residual factor), expressed as a percentage (for most bonds) but as a per-unit amount (for equities and funds), rounded to 6 decimal places
	isoCurrCd	O(1)	"XXX"	For security pledges: ISO currency in which the market price is expressed if given as a per-unit amount. Note: Not provided for regular bonds priced as a percentage. Normally provided for equities and funds only.
2.2.1.1.11	MrktVal	M(1)	1256563.94	Market value expressed in USD, rounded to 2 decimal places
	isoCurrCd	M(1)	"USD"	ISO currency code in which this market value is expressed (that is, "USD")
2.2.1.1.12	MrktVal	M(1)	920829.51	Market value expressed in EUR, rounded to 2 decimal places
	isoCurrCd	M(1)	"EUR"	ISO currency code in which this market value is expressed (that is, "EUR")
2.2.1.1.13	MrktVal	O(1)	9999.99	Market value of lent amount expressed in the currency code in which the security was issued, rounded to 2 decimal places
	isoCurrCd	M(1)	"XXX"	ISO currency code in which this market value is expressed (that is, ISO code of the currency in which the principal security was issued) Note: This valuation is only given if the security's issue currency is neither "USD" nor "EUR".
2.2.1.1.14	InstId	M(1)	000009999	Institution ID
2.2.1.1.15	InstDescp	M(1)	ABC BANK (LUX)	Institution's descriptive name

Collateral details

Sequence/Tag	Attribute	M/O	Example	Description
2.2.2	LoanColl.list	O(0,1)		List of collateral pieces: (repeated for each collateral piece)
2.2.2.1	LoanCollDetl	M(1,n)		Collateral piece details:
	instrTyp	M(1)	"BOND"	Instrument type of collateral. Possible values: "BOND" for bond; "EQUITY" for equity; "FUND" for fund; "CASH" for cash or guarantee as collateral
	loanTypRep	M(1)	"ASLplus-bnd"	Reported loan type code. Possible values: "ASLguaranteed"; "ASLplus-bnd"; "ASLplus-equ"; "ASLsecured"; "DASLsecured"; "ASLprincipal-bnd"; "ASLprincipal-equ"
	isoCurrCd	M(1)	"USD"	ISO currency code of collateral. For a security, it is the currency in which the security was issued; for cash, it is the currency of the cash; for a guarantee, it is the currency in which the guarantee is expressed (that is, 'USD')
2.2.2.1.1	SecInstr	O(0,1)		Collateral's security details: (only provided for collateral in the form of a security)
	isinCd	O(1)	"GB0044607413"	Security's ISIN code
	commonCd	M(1)	"000001034103"	Security's Common code
2.2.2.1.1.1	SecNm	O(0,1)	USD 9,25 WORLD BANK 86-2016	Security's descriptive name (only provided for collateral in the form of a security)
2.2.2.1.2	GuarNm	O(0,1)	"Citibank Guarantee"	Name of the guarantor (only provided for "ASLguaranteed" loans) Possible values: "Citibank Guarantee"; "CBL Guarantee backed by 3rd-Party Bank Guarantor"
2.2.2.1.3	ResidualFact	M(1)		The residual factor (also known as 'pool factor'). Percentage expressed in decimals (for example, 1 = 100%), rounded to 6 decimal places
2.2.2.1.4	MatDt	O(0,1)	2016-03-20	Final redemption date of security (only provided for collateral in the form of a security)
2.2.2.1.5	SecCompRating	O(0,1)		CBL composite rating of the security: (only provided for collateral in the form of a security)
	compRatingVal	M(1)	"AAA"	Possible values: "AAA", "AAPLUS", "AA", "AAMINUS", "APLUS", "A", "AMINUS", "BBBPLUS", "BBB", "BBBMINUS", "BBPLUS", "BB", "BBMINUS", "BPLUS", "B", "BMINUS", "CCC", "CC", "C", "D", "NR"
2.2.2.1.6	IssrInfo	O(0,1)		Security's issuer details: (only provided for collateral in the form of a security)
2.2.2.1.6.1	IssrNm	M(1)	WORLD BANK - IBAN	The Issuer's name Note: If it is undefined within the CBL system, the string 'Not Known' is given.
2.2.2.1.6.2	IssrIsoCtryCd	M(1)	XB	The Issuer's country, given in 2 character ISO country code notation Note: If it is undefined within the CBL system, the string "Not Known" is given.
2.2.2.1.6.3	IssrCompRating	M(1)		CBL composite rating of the issuer: (only provided for collateral in the form of a security)
	compRatingVal	M(1)	"AAA"	Possible values: "AAA", "AAPLUS", "AA", "AAMINUS", "APLUS", "A", "AMINUS", "BBBPLUS", "BBB", "BBBMINUS", "BBPLUS", "BB", "BBMINUS", "BPLUS", "B", "BMINUS", "CCC", "CC", "C", "D", "NR"

CBL Securities Lending Programmes

Sequence/Tag	Attribute	M/O	Example	Description
2.2.2.1.7	NomQty	M(1)	2400000	Amount of the collateral piece pledged. For a security pledge, it is the nominal quantity; for a cash pledge, it is the amount of the specified currency; for a guarantee, it is the size of the guarantee expressed in USD. All amounts are rounded to 2 decimal places
2.2.2.1.8	XchgRate	M(1)	1	FX rate from collateral piece's currency to USD, rounded to 6 decimal places
	frstIsoCurrCd	M(1)	"USD"	For a security pledge, it is the ISO currency code of the currency in which the security was issued; for a cash pledge, it is the ISO currency of the cash pledge; for a guarantee, it is "USD".
	recplsoCurrCd	M(1)	"USD"	ISO currency of conversion: "USD"
2.2.2.1.9	XchgRate	M(1)	.732815	FX rate from collateral piece's currency to EUR, rounded to 6 decimal places
	frstIsoCurrCd	M(1)	"USD"	For a security pledge, it is the ISO currency code of the currency in which the security was issued; for a cash pledge, it is the ISO currency of the cash pledge; for a guarantee, it is "USD".
	recplsoCurrCd	M(1)	"EUR"	ISO currency of conversion: "EUR"
2.2.2.1.10	MrktPrc	O(1)	131.7182	Current market price: The "dirty" price of the security (that is, clean price adjusted by any applicable accrued interest and residual factor), expressed as a percentage (for most bonds) but as a per-unit amount (for equities and funds), rounded to 6 decimal places It is not given for either cash or a guarantee as collateral.
	isoCurrCd	O(1)	"XXX"	For security pledges: ISO currency in which the market price is expressed if not given as a percentage Note: Not provided for regular bonds priced as a percentage. Normally relevant for equities and funds only.
2.2.2.1.11	MrktVal	M(1)	3161236.65	Market value expressed in USD, rounded to 2 decimal places
	isoCurrCd	M(1)	"USD"	ISO currency code of the currency in which this market value is expressed (that is, "USD")
2.2.2.1.12	MrktVal	M(1)	2316601.64	Market value expressed in EUR, rounded to 2 decimal places
	isoCurrCd	M(1)	"EUR"	ISO currency code of the currency in which this market value is expressed (that is, "EUR")
2.2.2.1.13	MrktVal	O(1)	9999.99	Market value of lent amount expressed in the currency in which the security was issued, rounded to 2 decimal places
	isoCurrCd	M(1)	"XXX"	ISO currency code of the currency in which this market value is expressed (that is, of the currency in which the principal security was issued) Note: Not provided if the issue currency of the collateral is USD or EUR.
2.2.2.1.14	CollVal	M(1)	3145430.47	Collateral value expressed in USD, rounded to 2 decimal places. This is calculated by taking the market value and adjusting it by any applicable margin (haircut) - that is, $(MrktVal * (100 - MarginAmnt) / 100)$.
	isoCurrCd	M(1)	"USD"	ISO currency code of the currency in which this collateral value is expressed (that is, "USD")

Sequence/Tag	Attribute	M/O	Example	Description
2.2.2.1.15	CollVal	M(1)	2305018.63	Collateral value expressed in EUR, rounded to 2 decimal places
	isoCurrCd	M(1)	"EUR"	ISO currency code of the currency in which this collateral value is expressed (that is, "EUR")
2.2.2.1.16	MarginAmnt	M(1)	.5	Amount of haircut applied to the market value in order to calculate collateral value, expressed as a percentage, rounded to 2 decimal places - that is, ".5" means collateral value is 99.5% of its market value. Note: For both cash and guarantee collateral, this is set to "0" (zero).

Subtotal details

Sequence/Tag	Attribute	M/O	Example	Description
2.2.3	AssprovLtypSubtot	M(1)		Subtotal section per lending product: (given once for each lending product) Note: Always provided even if there is no loan activity.
2.2.3.1	MrktVal	M(1)	1594703663.46	Total of all lent principal piece market values expressed in USD, rounded to 2 decimal places
	isoCurrCd	M(1)	"USD"	ISO currency code of the currency in which this market value is expressed (that is, "USD")
2.2.3.2	MrktVal	M(1)	1168623526.04	Total of all lent principal piece market values expressed in EUR, rounded to 2 decimal places
	isoCurrCd	M(1)	"EUR"	ISO currency code of the currency in which this market value is expressed (that is, "EUR")
2.2.3.3	CollVal	M(1)	1602717249.12	Total of all collateral piece market values expressed in 'USD', rounded to 2 decimal places
	isoCurrCd	M(1)	"USD"	ISO currency code of the currency in which this market value is expressed (that is, 'USD')
2.2.3.4	CollVal	M(1)	1174496138.8	Total of all collateral piece market values expressed in 'EUR', rounded to 2 decimal places
	isoCurrCd	M(1)	"EUR"	ISO currency code of the currency in which this market value is expressed (that is, 'EUR')
2.2.3.5	CoverRatio	M(1)	1.005025	Ratio of CollVal / MrktVal ('USD' values), rounded to 6 decimal places Note: Set to '0' if MrktVal is equal to zero.

End of Report

CBL Securities Lending Programmes

General Notes

- Reported numbers are rounded and given to less precision than that applied during calculations. For this reason, it will not always be possible to reconcile the valuations from the other numbers provided.
- The distribution of collateral to lenders is done using a pro-rata based algorithm. The effect of this is that nominal pieces reported will not necessarily adhere to the issue's minimum denomination or tradable amount criteria.
- ASLguaranteed loans have collateral details in the form of a bank guarantee. This is given in the report in the form of a USD cash amount.
- Within each lending product, the collateral reported is given in the form of a pool whose use is to cover the total exposure arising from the principals lent in that lending product. As such, no specific loan reference information is provided against the collateral pieces.
- For collateral pieces with an issue currency of either USD or EUR, both FX rates will still be provided even though one of them will appear irrelevant as it will contain a rate of "1".
- Market values are always provided in USD and EUR. For principal and collateral pieces with an issue currency other than USD or EUR, an additional market value is provided, expressed in the issue currency of the asset.

3.5 XML Example

The following is an extract from a larger file for a lender active in all the lending products. The information given below is selected so as to show the variations that occur between the different products as well as those for the possible forms of collateral:

- security-bond
- security-equity
- cash
- guarantee

Note: Where information has not been included (in order to reduce the size of the example), the string “etc...” is inserted to indicate this. This string will not be present in the real reports.

In the following example, the headings “Report Header”, “Report Body” etc. are included here to help to clarify the structure of the report. These headings will not be present in the real reports.

End of Report Body

4. MT536 Statement of Transactions

Within the MT536 Statement of Transactions, lender and borrower can find transaction messages through out the loan life-cycle events, among other type of transactions.

Note: This report can be exported as a CSV (comma separated file) via Xact Web Portal, for use in software such as Microsoft Excel or Microsoft Access, to produce customised reports.

4.1 Lender reporting

HTML and PDF format

Start of loan reservation

This report provides the lender with information on the start of a loan reservation. Loan reservation is materialised by a simultaneous delivery/receipt to/from the internal 57746 account. The lender will see two instructions from the MT536 messages, similar to those shown below. Loan reservation is only relevant for ASLplus and ASL principal.

The first instruction, a delivery free, shows the securities going from the lender's account to the reservation account:

000013537497	EUR 5,00 FRANCE OAT 01-2022		
FR0000187876	NCSD/SICVFRPPXXX/EUROCLEAR FRANCE PARIS

```

For ASLplus, the **[LOAN TYPE]** is ASL+.

For ASL principal, the **[LOAN TYPE]** is FLPR.

Start of loan

This report provides the clean price of the lent security, nominal lent and loan number as shown in the following example:

000017034286	EUR 4,25 ENEL SPA 03-2013		
XS0170342868	NCSD/SICVFRPPXXX/EUROCLEAR FRANCE PARIS		
NONREF	Borrowing/Lending - Securities Lending	11-Jul-2003 FAMT	-100,000
016B830000CCCFI	Delivery Free	11-Jul-2003	
CEDELULLXXX			
CEDE/57711 CBL	- UNPUBLISHED		
[TRANSACTION DESCRIPTION]			
INTERNAL / 31LD - LC80095			

For ASL loans, an example of the **[TRANSACTION DESCRIPTION]** is as follows:

LOAN LH54595 START VALUE 106000,00 USD

For ASL principal loans, an example of the **[TRANSACTION DESCRIPTION]** is as follows:

FLPR LH54595 START VALUE 106000,00 EUR START RATE 1,500000

For ASLplus loans, an example of the **[TRANSACTION DESCRIPTION]** is as follows:

PRIN LH54595 START VALUE 106000,00 EUR START RATE 1,500000

In all of the above narratives, **START VALUE** is the value of the loan. This is followed by the ISO code for the currency in which the value is expressed. For ASL and ASL principal, the value is always expressed in USD. For ASLplus, it is either USD or EUR as decided by the borrower. **START RATE** is the gross fee rate expressed as a percentage.

CBL Securities Lending Programmes

Close of loan

This report provides the lender fees for the loan, nominal returned and loan number.

000017034286	EUR 4,25 ENEL SPA 03-2013

For ASL principal loans, an example of the **[TRANSACTION DESCRIPTION]** is as follows:

FLPR LH53466 CLOSED LH53466 FEES LOAN FEES LEND 75,00EUR+

For ASLplus loans, an example of the **[TRANSACTION DESCRIPTION]** is as follows:

PRIN LH53465 CLOSED LH53465 FEES LOAN FEES LEND 75,00EUR+

Reimbursements

If a borrower partially returns a position to the lender, then in the above closing instructions, CLOSED is replaced with REIMBURSED.

The fees received only consider the reimbursed amount. This should be compared to the way in which reimbursements are reported in the "[Securities Lending and Borrowing Commissions](#)" on page 4 and "[Billing statements](#)" on page 82, where fees are calculated on the outstanding lent position, as opposed to the MT536 which calculates the fee on the amount being reimbursed. This is because the MT536 is instruction based and the SLBCR is fees based.

1. Depending on the browser, the transaction description might appear in one or two lines.

Swift ISO format

Start of loan reservation

This report provides the lender with information on the start of a loan reservation. Loan reservation is materialised by a simultaneous delivery/receipt to/from the internal 57746 account. The lender will see two instructions from the MT536 messages, similar to those shown below. Loan reservation is only relevant for ASLplus and ASL principal.

The first delivery free instruction shows the securities going from the lender's account to the reservation account:

[TRANSACTION DESCRIPTION]					
INTERNAL / 31LD - LC77324					

For ASL loans, an example of the **[TRANSACTION DESCRIPTION]** is as follows:

LOAN LH33863 CLOSED LH33863 FEES LOAN FEES BOR. 79,32EUR-

For ASL principal loans, an example of the **[TRANSACTION DESCRIPTION]** is as follows:

FLPR LH53466 CLOSED LH53465 FEES LOAN FEES BOR. 75,00EUR-

For ASLplus loans, an example of the **[TRANSACTION DESCRIPTION]** is as follows:

PRIN LH53465 CLOSED LH53465 FEES LOAN FEES BOR. 75,00EUR-

Reimbursements

If a borrower partially returns a position to the lender, then in the above closing instructions, CLOSED is replaced with REIMBURSED.

The fees received only consider the reimbursed amount. This should be compared to the way in which reimbursements are reported in the "[Securities Lending and Borrowing Commissions](#)" on page 4 and "[Billing statements](#)" on page 82, where fees are calculated on the outstanding lent position, as opposed to the MT536 which calculates the fee on the amount being reimbursed. This is because the MT536 is instruction based and the SLBCR is fees based.

Return of collateral (ASL only)

Return of collateral is only applicable to ASL loan. It is materialised by a simultaneous delivery/receipt to/from the internal 57767 account. Borrowers pledging collateral will see two instructions via MT536, similar to those shown below.

The first delivery free instruction shows the securities moving from the borrower's account to the pledge account:

For ASL: Fifth line: [1-2] Decimals of price [3] Space [4-6] Loan value currency [7] Space [8-20] HANDLING FEES [21] Space [22-33] Handling fee amount (right justified) [34] Space [35] First letter of the handling fee currency Sixth line: [1-2] Last 2 letters of the handling fee For ASLplus: Fifth line: [1-2] Decimals of price [3] Space [4-6] Loan value currency [7] Space [8-17] START RATE [18] Space [19-26] Gross fee rate expressed as a percentage For ASL principal: Fifth line: [1-2] Decimals of price [3] Space [4-6] Loan value currency [7] Space [8-17] START RATE [18] Space [19-26] Gross fee rate expressed as a percentage Sixth line: [1-13] HANDLING FEES [14] Space [15-26] Handling fee amount (right justified) [27] Space [28-30] Handling fee currency
:95R::DEAG/	CEDE/57711 Internal CBL account used as counterparty to the loan.

Example:

The following example shows the complete MT536 message with the fields shown above highlighted:

MT536 :16R: TRAN :16R: LINK :20C: :RELA//NONREF :20a: :TRRF//5493000L514RA0SXJJ440LT997935 7711D2S6020180628150021 :16S: LINK :16R: LINK :20C: :ASRF//L215544 :16S: LINK :16R: TRANSDET :94F: :SAFE//NCS/DTCYUS33XXX :36B: :PSTA//FAMT/1778000, :22F: :TRAN//BOLE :22H: :REDE//RECE :22H: :PAYM//FREE :22F: :SETR//SECB :22F: :RTGS//YRTG :98A: :ESET//20030602	MT536 - continued :98A: :SETT//20030602 :70E: :TRDE//3VLD INTERNAL 015BIP0000053VLD [LOAN DESCRIPTION] :16R: SETPRTY :95R: :DEAG/CEDE/57711 :16S: SETPRTY :16R: SETPRTY :95P: :PSET//CEDELULLXXX :16S: SETPRTY :16S: TRANSDET :16S: TRAN
--	--

For ASL loans, an example of the **[LOAN DESCRIPTION]** is as follows:

**LOAN LG87848 START VALUE 2015007,
40 USD HANDLING FEES 7,00 E
UR**

For ASL principal loans, an example of the **[LOAN DESCRIPTION]** is as follows:

**FLPR LG87850 START VALUE 2015007,
40 EUR START RATE 1,150000
HANDLING FEES 7,00 EUR**

For ASLplus loans, an example of the **[LOAN DESCRIPTION]** is as follows:

**PRIN LG87850 START VALUE 2015007,
40 EUR START RATE 1,150000**

In all of the above narratives, **START VALUE** is the value of the loan. This is followed by the ISO code for the currency in which the value is expressed. For ASL, the value is always expressed in USD. For ASLplus, it is either USD or EUR as decided by the borrower. For ASL principal, if the securities is in USD, the value is expressed in USD while if the securities is in a currency other than USD, the value is expressed in EUR.

5. MT535 Statement of Holdings

The summary of holdings is listed at the start of the report, followed by the amounts lent and/or borrowed, and pledged at a security level.

Note: Pledged for Collateral is exclusive to borrowing. This report can be exported as a .csv (comma separated file), for use in software such as Microsoft Excel or Microsoft Access, to produce customised reports.

5.2 Swift ISO format

Lender reporting

The changes in securities holdings due to lending activities can be identified in MT535. Below are examples that reflect each loan life-cycle event for a lender.

Start of loan reservation

Loan reservation is only relevant to ASL principal and ASLplus. As soon as the loan reservation is executed, the reserved securities will be reflected in the MT535 Statement of Holdings under sub-balance :93C::LODE.

Example:

```
MT535
:16R: FIN
:35B: ISIN USY0606WBQ25
      /XS/009371648
      USD 9,025 BANGKOK BK PCL(REGS) (EXCH)
      97-2029
:90A::MRKT//PRCT/98,01
:93B::AGGR//FAMT/10000000,
:93B::AVAI//FAMT/10000000,
:16R: SUBBAL
:93C::AWAS//FAMT/9995000,
:94F::SAFE//NCSD/DTCYUS33XXX
:16S: SUBBAL
:16R: SUBBAL
:93C::LOAN//FAMT/AVAI/5000,
:94F::SAFE//NCSD/DTCYUS33XXX
:16S: SUBBAL
:19A::HOLD//USD9930479,2
:19A::ACRU//USD129479,2
:16S: FIN
```

Close of loan reservation

For ASL principal and ASLplus, as soon as the loan reservation is closed the corresponding amount is deducted from the "Pledging on Loan Delivery" sub-balance (:93C::LODE).

CBL Securities Lending Programmes

Start of loan

As soon as the loan-opening is executed, the lent securities will be reflected under sub-balance :93C::LOAN.

This sub-balance is included in the aggregate balance in field :93B::AGGR, which is used in the calculation of the holding value and accrued interest.

Example:

```
MT535
:16R: FIN
:35B: ISIN USY0606WBQ25
      /XS/009371648
      USD 9,025 BANGKOK BK PCL(REGS) (EXCH)
      97-2029
:90A::MRKT//PRCT/113,3326
:93B::AGGR//FAMT/1778000,
:93B::AVAI//FAMT/1778000,
:16R: SUBBAL
:93C::OTHR//FAMT/AVAI/0,
:94F::SAFE//NCSD/DTCYUS33XXX
:16S: SUBBAL
:16R: SUBBAL
:93C::LOAN//FAMT/AVAI/1778000,
:94F::SAFE//NCSD/DTCYUS33XXX
:16S: SUBBAL
:19A::HOLD//USD2031761,41
:19A::ACRU//USD16707,78
:16S: FIN
```

Close of loan

As soon as the loan is closed, the lent sub-balance is transferred from the :93C::LOAN sub-balance to the :93C::OTHR sub-balance on the MT535.

However, if loans for the security are still open, both tags of the :93C: field are reported.

Example:

```
MT535
:16R: FIN
:35B: ISIN USY0606WBQ25
      /XS/009371648
      USD 9,025 BANGKOK BK PCL(REGS) (EXCH)
      97-2029
:90A::MRKT//PRCT/113,3326
:93B::AGGR//FAMT/1778000,
:93B::AVAI//FAMT/1778000,
:16R: SUBBAL
:93C::OTHR//FAMT/AVAI/1778000,
:94F::SAFE//NCSD/DTCYUS33XXX
:16S: SUBBAL
:19A::HOLD//USD2031761,41
:19A::ACRU//USD16707,78
:16S: FIN
```

Borrower reporting

Pledged collateral (ASL only)

As soon as securities are pledged, the securities will be reflected in the MT535 – Statement of Holdings under sub-balance :93C::PLED.

This sub-balance is included in the aggregate balance in field :93B::AGGR which is used in the calculation of the holding value and accrued interest.

Example:

```
MT535
:16R: FIN
:35B: ISIN XS0125902451
      /XS/012590245
      EUR 4,50 FREDDIE MAC 01-2004
:90A::MRKT//PRCT/101,62
:93B::AGGR//FAMT/4246600,
:93B::AVAI//FAMT/4246600,
:16R: SUBBAL
:93C::OTHR//FAMT/AVAI/2326600,
:94F::SAFE//CUST/CITIGB2LMAG
:16S: SUBBAL
:16R: SUBBAL
:93C::PLED//FAMT/AVAI/1920000,
:94F::SAFE//CUST/CITIGB2L MAG
:16S: SUBBAL
:19A::HOLD//EUR4355184,97
:19A::ACRU//EUR39790,05
:16S: FIN
```

CBL Securities Lending Programmes

Start of loan

As soon as the loan opening is executed, the borrowed securities will be reflected in the MT535 Statement of Holdings under sub-balance 93B::BORR.

This sub-balance is not included in the aggregate balance in field 93B::AGGR which is used in the calculation of the holding value and accrued interest.

Example:

1,778,000 bonds were borrowed to settle a delivery of 4,473,000 (:93C::PEND)

```
MT535
:16R: FIN
:35B: ISIN USY0606WBQ25

:16S: SUBBAL
:19A::HOLD//USD3079638,36
:19A::ACRU//USD25324,79
:16S: FIN
```

Example:

Upon settlement of the delivery, the PEND sub-balance is deducted from the aggregate holding which becomes zero.

```
MT535
:16R: FIN
:35B: ISIN USY0606WBQ25
      /XS/009371648
      USD 9,025 BANGKOK BK PCL (REGS) (EXCH)
      97-2029
:90A::MRKT//PRCT/113,3326
:93B::AGGR//FAMT/0,
:16R: SUBBAL
:93C::OTHR//FAMT/AVAI/0,
:94F::SAFE//NCSD/DTCYUS33XXX
:16S: SUBBAL
:16R: SUBBAL
:93B::BORR//FAMT/1778000,
:94F::SAFE//NCSD/DTCYUS33XXX
:16S: SUBBAL
:16S: FIN
```

Close of loan

As soon as the loan is closed, the borrowed sub-balance is no longer reflected in the MT535 – Statement of Holdings.

Example:

The client receives securities that are used to close the loan.

```
MT535
:16R: FIN
:35B: ISIN USY0606WBQ25
      /XS/009371648
      USD 9,025 BANGKOK BK PCL(REGS) (EXCH)
      97-2029
:90A::MRKT//PRCT/113,3326

```

6. MT54x Settlement reports

Lenders and borrowers can receive a settlement report for every transaction throughout the loan life-cycle events via MT546 Delivery free confirmation and MT544 Receive free confirmation. MT54x settlement report is only available in Swift ISO format.

6.1 Lender reporting

Start of loan reservation

Start of loan reservations are reported on MT546 and MT544 messages as a debit and credit in the security. The following examples show the complete MT546 and MT544 message generated for "Start of Reservation" on Trade date. Loan reservation is only relevant for ASL principal and ASLplus.

The first message, an MT546 Delivery free confirmation, shows the securities going from the lender's account to the reservation account.

For ASLplus, the **[LOAN TYPE]** is ASL+.

For ASL Principal, the **[LOAN TYPE]** is FLPR.

Start of loan

Start of loan will generate MT546 Deliver free confirmation for lender. It can be identified through the following fields and contents:

Field	Content
:20C::RELA//	NONREF
:20a::TRRF//	[52] Unique transaction identifier
:70E::SPRO//	contains the following information: First line: [1-4] Loan type, where ASL = LOAN; ASLplus = PRIN; ASL principal = FLPR [5] Space [6-12] Loan reference [13] Space [14-24] START VALUE [25] Space [26-35] Loan initial value at the time the loan is open followed by the decimal "," (right justified). Second line: [1-2] Decimals of price
:22F::SETR//	SECL Transaction type (the result of a lending/borrowing operation)
:95R::REAG/	CEDE/57711 Internal CBL account used as counterparty to the loan

Example:

The following example shows the complete MT546 message with the fields shown above highlighted:

MT546 :16R: GENL :20C::SEME//L215540 :23G: NEWM :98C::PREF//20030602174132 :16R: LINK :20C::RELA//NONREF :20a::TRRF//5493000L514RA0SXJJ440LT997935 7711D2S6020180628150021 :16S: LINK :16S: GENL :16R: TRADDET :98A::ESET//20030602 :98A::SETT//20030602 :35B: ISIN USY0606WBQ25 /XS/009371648 USD 9,025 BANGKOK BK PCL(REGS) (EXCH) 97-2029 :16R: FIA :98A::COUP//20030602 :16S: FIA	MT546 - continued :70E::SPRO//[LOAN DESCRIPTION] ... :16S: TRADDET :16R: FIAC :36B::ESTT//FAMT/1778000, :97A::SAFE//11111 :94F::SAFE//NCS/DTCYUS33XXX :16S: FIAC :16R: SETDET :22F::SETR//SECL :22F::RTGS//YRTG :16R: SETPRTY :95R::REAG/CEDE/57711 :16S: SETPRTY :16S: SETDET :95P::PSET//CEDELULLXXX :16S: SETPRTY :16S: SETDET
--	--

For ASL loans, an example of the **[LOAN DESCRIPTION]** is as follows:

**LOAN LG87848 START VALUE 2015007,
40 USD**

For ASL principal loans, an example of the **[LOAN DESCRIPTION]** is as follows:

**FLPR LG87850 START VALUE 2015007,
40 EUR START RATE 1,150000**

For ASLplus loans, an example of the **[LOAN DESCRIPTION]** is as follows:

**PRIN LG87850 START VALUE 2015007,
40 EUR START RATE 1,150000**

In all of the above narratives, **START VALUE** is the value of the loan. This is followed by the ISO code for the currency in which the value is expressed. For ASL, the value is always expressed in USD. For ASLplus, it is either USD or EUR as decided by the borrower. For ASL principal, if the securities is in USD, the value is expressed in USD while if the securities is in a currency other than USD, the value is expressed in EUR. **START RATE** is the gross fee rate expressed as a percentage.

CBL Securities Lending Programmes

Close of loan

Close of loan will generate MT544 Receive free confirmation for lender. It can be identified through the following fields and content:

Field	Content
:20C::RELA//	NONREF
:20a::TRRF//	[52] Unique transaction identifier
::70E::SPRO//	contains the following information: First line: [1-4] Loan type, where ASL = LOAN; ASLplus = PRIN; ASL principal = FLPR [5] Space [6-12] Loan reference [13] Space [14-19] CLOSED ^a Second line: [1-7] Loan reference [8] Space [9-27] FEES LOAN FEES LEND [28+] Spaces [nn-35] Fees with a ',' decimal separator followed by 2 decimal places (right aligned) Third line: [1-4] Fee currency followed by a '+' sign (indicating a credit to the account)
:22F::SETR//	SECL The indicator SECL
:95R::DEAG/	CEDE/57711 Internal CBL account used as counterparty to the loan.

a. If a loan is partially reimbursed, CLOSED will be replaced by REIMBURSED in positions 14- 23.

Example:

```

6.2 Borrower Reporting

Borrowers can receive settlement reports for every transaction throughout the loan life-cycle via MT546 Delivery free confirmations and MT544 Receive free confirmations.

Pledged securities (ASL loans only)

Pledges are reported in the MT546 and MT544 messages as a debit and a credit in the security serving as collateral for a loan.

Pledge transactions can be identified through the following fields and contents in the MT546 and MT544 messages:

MT546 Deliver free confirmation

Field	Content
:20C::RELA//	NONREF
:70E::SPRO//	TRANSFER FROM FREE ACCOUNT FOR LOAN LXXXXXX COLL. BLOCK
:95R::REAG/	CEDE/57767 Internal CBL account

CBL Securities Lending Programmes

Return of collateral (ASL only)

When the loan is closed the collateral is made available to the borrower. The transactions generate MT546 and MT544 as a debit and a credit in the security serving as collateral.

Pledge transactions can be identified in MT546 and MT544 through the following fields and content:

MT546 – Deliver free confirmation

Field	Content
:20C::RELA//	NONREF
:70E::SPRO//	TRANSFER FROM PLEDGE ACCOUNT FOR LOAN LXXXXXX COLL. UNBLOCK
:95R::REAG/	CEDE/57767 Internal CBL account

MT544 – Receive free confirmation

Field	Content
:20C::RELA//	NONREF
:70E::SPRO//	TRANSFER TO FREE ACCOUNT FOR LOAN LXXXXXX COLL. UNBLOCK
:95R::DEAG/	CEDE/57767 Internal CBL account

8. Billing statements

Clients are notified through the issuance of Statement of Fees, Pass-Through Statement and Self-Billing Invoice at the beginning of each month about the ASL/ASLplus/ASL principle lending and borrowing fees, as well as the associated SFTR delegation fees if subscribed, due on the 15th of the same month. On the first business day of each month, the notification of securities lending services due from the previous month is sent to clients, by post or via the electronic billing portal, in the Statement of Fees. The value date is equal to the posting date.

The Statement of Fees details the following:

ASL

- Handling Fees for Borrowers;
- CBL's Commission Fee for Lenders;
- CBL's Penalty Income via the Lenders.

ASL principal

- Borrower Fees;
- Recall Penalty for Borrowers;
- Handling Fee for Borrowers.

SFTR Delegation Fees

- ASL Monthly;
- ASLplus Monthly;
- ASL Principal Monthly.

SFTR Delegation Fees surcharge

- ASL monthly;
- ASLplus Monthly;
- ASL Principal Monthly.

Statement of Fees - Summary

Global Securities Financing	Volume	VAT Rate	Base Amount in EUR
Automated lending			4.940,15-
ASL			4.940,15-
Lending income	316		4.940,15-

SFTR Delegation Fees		
ASL Monthly	830	83,00
ASLplus Monthly *	749	74,90
	81	8,10

SFTR Delegation Fees surcharge	1	250.00
UnaVista-UK	1	250.00
ASL Monthly *	1	250.00

If applicable, SFTR Delegation minimum fee adjustment will be shown in the Fee Summary.
This being the delta from the advised "SFTR Delegation Fees" to round up to the minimum fee due.

Minimum Fee Adjustment	109,95	0,00	109,95
------------------------	--------	------	--------

The Pass-Through Statement details the following:

ASL

- The Borrowers Fees;
- Recall Penalty for Borrowers;
- Lenders Pass-Through income;
- Recall Penalty Income for Lenders (pass-through value).

The Self-Billing invoice details the following:

ASLplus

- Lender income.

ASL principle

- Lender income;
- Recall Penalty Income for Lenders.

9. Collateral reporting for ASL principal and ASLplus borrowers

Clearstream Banking will provide Triparty Collateral Management Daily Exposure Reports via CmaX to the borrower's designated address.

MT535 Statement of Holdings and MT536 Statement of Transactions reports can also be provided via Xact Web Portal or via Swift.

Please refer to the Borrower Operational Profile documentation.

10. Custody and corporate actions

For interest income or final redemption payments on securities on loan and/or held as collateral, clients can use the following reports:

- MT564 Corporate Action Notification;
- MT566 Corporate Action Confirmation;
- MT567 Corporate Action Status and Processing Advice

The MT567 indicates whether a corporate action instruction or cancellation has been accepted for processing, rejected or denied. It is also sent to clients whose corporate action instruction is pending due to insufficient holding;

- MT568 Corporate Action Narrative

The MT568 reports the details and resolutions of (extra)ordinary general meetings;

- MT599 (in exceptional cases) advising of preliminary information from reliable sources on upcoming events.

10.1 MT567 Corporate Action Status and Processing Advice

The following cases illustrate the relevant code words used to notify clients with the MT567.

Corporate action instruction pending

For lack of securities due to "On Loan" position: Corporate action instruction rejected.

MT567

```
:16R: STAT
:16R: REAS
:24B::PEND//LACK
:70D::ADTX//++WARNING++YOUR INSTRUCTION IS
CURRENTLY PENDING DUE TO 'ON LOAN'
POSITION. IF
THE ACCOUNT HOLDINGS DO NOT INCREASE WITHIN
THE NEXT 5 BUSINESS DAYS YOUR INSTRUCTION
WILL
BE REJECTED. IF DEADLINE FALLS WITHIN THIS
TIMEFRAME,
THE INSTRUCTION WILL BE REJECTED AT
THE SET OF DEADLINE DATE AND TIME.
```

Corporate action instruction rejected

- For lack of securities due to "On Loan" position where a recall has not been possible within five business days:

MT567

```
:16R: STAT
:16R: REAS
:24B::REJT//LACK
```

- When a borrower account requests participation in a corporate event for their borrowed position:

MT567

```
:16R: STAT
:16R: REAS
:24B::PEND//NARR
:70D::ADTX//++WARNING++NOT AUTHORISED TO
INSTRUCT THIS ACCOUNT
```

10.2 MT544/MT546 and MT536

For ASL, ASLplus and ASL principal loans, if a corporate action occurs that by its nature it creates such an impact to any in-flight loans such that they require rebooking, then for each such loan the following pair of instructions with the given wording below will appear in field “:70E” of the MT544/MT546 and MT536 instruction:

Opening

i) **HELD FREE ADJUSTMENT FOR LOAN (REF) DUE TO CA: ACXXXXXXXX**

ii) For borrower:

LOAN LM00154 START VALUE 73684,

00 USD HANDLING FEES 0,00 E

UR CA: ACXXXXXXXX

For lender:

LOAN LM00154 START VALUE 73684,

00 USD CA: ACXXXXXXXX

Closing

i) **HELD FREE ADJUSTMENT FOR LOAN (LOAN REF) DUE TO CA: ACXXXXXXXX**

ii) For borrower:

LOAN LG87848 CLOSED

LG87848 FEES LOAN FEES BOR. 82,51

EUR- CA: ACXXXXXXXX

For lender:

LOAN LG87848 CLOSED

LG87848 FEES LOAN FEES LEND 82,51

EUR+ CA: ACXXXXXXXX

11. SFTR Rebooking

For opening and closing of loan securities due to SFTR rebooking, the following pair of instructions with the given wording below will appear in field “:70E” of the MT544/MT546 and MT536 instruction:

Opening

i) **HELD FREE ADJUSTMENT FOR LOAN (LOAN REF) DUE TO REBOOKING FOR SFTR**

ii) For borrower:

**LOAN LM00154 START VALUE 73684,
00 USD HANDLING FEES 0,00 E
UR REBOOKING FOR SFTR**

For lender:

**LOAN LM00154 START VALUE 73684,
00 USD REBOOKING FOR SFTR**

Closing

i) **HELD FREE ADJUSTMENT FOR LOAN (LOAN REF) DUE TO REBOOKING FOR SFTR**

ii) For borrower:

**LOAN LG87848 CLOSED
LG87848 FEES LOAN FEES BOR. 82,51
EUR- REBOOKING FOR SFTR**

For lender:

**LOAN LG87848 CLOSED
LG87848 FEES LOAN FEES LEND 82,51
EUR+ REBOOKING FOR SFTR**
