Reason for opening the other account

Corresponding CASCADE account or Creation main account

VestimaPRIME

The account will be used in VestimaPrime.

- Yes (please complete the VestimaPrime Service Application Form)
 No

Usage for assets

(please select the appropriate category)

- For proprietary assets
 For third party assets – Segregated⁸:

For segregated third party assets, please indicate the details of the underlying client (to be recorded in the CBF business partner register):

Underlying client name

Country

- For third party assets – Omnibus⁹:

The Omnibus account is used to co-mingle the interests of several underlying clients with no single entity/individual having a predominant and continuing interest in the assets portfolio.

Reports setup

CBF reports should show

- Common Codes (default option) ISIN

8. Subject to prior approval by CBF.

9. Omnibus accounts for third party assets are intended to facilitate the operations of professional securities intermediaries. CBF may require disclosure of the identities of any underlying clients having a continuing interest of 25% or more in the value of the assets deposited. In cases where there is such a predominant interest, the assets may be deposited on a separate, segregated client account.

Settlement¹⁰

(please tick one box only per option)

The transactions for all accounts are to be settled according to the following criteria:

Settlement sequence option

- Option 1** by transaction reference number in increasing order (default option)
- Option 2** by settlement date (flexible - D)
- Option 3** by settlement date (strict - L)
- Option 4** by nominal amount (flexible - S)

Settlement option

- Option 1**
Include transactions in the mandatory settlement period only. (default option)
- Option 2**
Include against payment transactions in both mandatory and optional settlement periods.

BICs linked to the account:

Main BIC for the account

Matching BIC for the account

Matching BIC: CBF will include the BIC flagged as "matching BIC" in the settlement party details of external settlement instructions as follows:

- Receipt instructions :95P::BUYR//matching BIC
- Delivery instructions :95P::SELL//matching BIC

If the customer does not provide a "matching BIC" for the account, CBF will use the main BIC as the default "matching BIC". Customers who either do not wish the main BIC to be defaulted as "matching BIC", or would like to define a different BIC as "matching BIC" at a later stage are requested to send a SWIFT MT599 or free-format message via CreationOnline for the attention of PPI Connect. If the customer does not provide a "matching BIC", CBF will not be held responsible for any cross matching of settlement instructions that might occur during the external settlement process.

For TARGET2-Securities (T2S) markets, if the customer has populated these fields (BUYR/SELL) in their instruction to CBF, CBF will not overwrite this information with the "matching BIC".

For accounts linked to Vestima activity, that is, the customer is a Vestima Order Issuer (OI) placing orders in investment funds that settle in a T2S market through this account, the "matching BIC" is mandatory.

Note: Unless otherwise explicitly communicated by the customer, for any additional account created, that is not a new "main account" type, CBF will default the same main BIC and "matching BIC" as the ones applied to the main account.

Partial settlement

- PART: Instructions eligible for partial settlement
- NPAR: Instructions not eligible for partial settlement (default option)

Note: Your preference will apply for all internal, Bridge and external settlement instructions.
