# Guidelines

## SignatureNet

If your company has confirmed that CBF should only use the web-based platform SignatureNet to check your company's signatures, this form does not have to be provided.

#### Account numbers

- First box

Mark the first box only if all of your accounts are managed by the same office.

- Second box

Mark the second box only if all the accounts listed are covered by the signatures on this form. Please ensure that you have listed all relevant account numbers.

Note: Please use (an)other copy/copies of this form for accounts not covered by the signatures on this form.

#### Name of the authorised signatory

At least one signatory name is mandatory if he/she is authorised to sign alone. At least two signatories are mandatory if they are authorised to sign jointly. If completing by hand, please write names in BLOCK CAPITALS.

### Scope of authority

An updated official list of authorised signatures with specimen signatures refers to the company itself. Whereas the specimen signature form for CBF only requires the indication of authorised signatories for the concerned CBF account(s), CBF uses this condensed standardised form to feed an internal electronic signature management system. This system enables a decentralised, simple and fast verification of signatures directly within all operational departments.

#### Individual or joint signatories

Please enter any individual signatories first. If no box is marked, we will assume that each signatory is authorised to sign alone.

## Legally binding signing

This form and all following pages must be numbered, dated and signed by a company director or another officer (two if acting jointly) authorised to appoint signatories. The specimen signature(s) used to sign the form must be included in the official company list of authorised signatures.

## Please return the completed form to:
