

# Clearstream Securities Lending Services – ASLplus

Product information

## Earn additional revenue and reduce risk

### Key benefits for you as a lender

#### Generate revenues

- incremental income from otherwise unutilised assets
- multiple distribution channels with lending rates negotiated on a case-by-case basis.

#### Save costs

- no custody fees on lent securities
- all administrative tasks, including loan transactions, returns and recalls as well as corporate actions, handled by Clearstream, while you retain the full benefits of the assets.

#### Control your risk

- Clearstream as sole, AA rated borrower
- loans are collateralised by Clearstream with bonds rated A+ and higher
- lenders obtain pledge on collateral, as guaranteed under Luxembourg statutes.

ASLplus leverages the demand for strategic lending in the wholesale fixed income and equity market to create a unique way of increasing your portfolio yields. Clearstream has optimised its distribution in this market through dedicated in-house close-to-market desks which negotiate the best possible rates on behalf of lenders.

Settlement efficiency is increasing constantly. As a result, the revenue potential from settlement fails related lending is limited and portfolios are under-utilised. Responding to these customer needs, Clearstream launched ASLplus in 2006 to complement its long-established ASL fails lending product.

These days, ASLplus is our Securities Lending flagship product that generates important income for participating lenders while providing liquidity to the market. We now have lenders from Europe, the Middle East, Africa and Asia while most of our high-quality borrowers are European or Asian.

## ASLplus loan opening
