Clearstream Banking AG - Domestic Fee Schedule

1. General

This document sets out the fees for services on the German domestic business offered by Clearstream Banking.

1.1 Validity

This Fee Schedule is **valid from 1 January 2015** until further notice. Updated fee schedules will be published on the website, www.clearstream.com. Customers can subscribe to the corresponding e-mail alerts.

1.2 Accounting

Unless otherwise indicated, all services are quoted in basis points (1 bp = 0.01 percent) and are invoiced in EUR. The fees are net and will be invoiced plus the German statutory value-added tax (VAT) unless otherwise stated.

1.3 Terms of payment

Invoicing is carried out monthly. Clearstream Banking advises customers of the total amount of fees payable at the beginning of the month following the invoice period. That amount is debited from a customer's account on the 5th working day of the month. Should the total amount of the invoice be less than EUR 5.00 payment will be waived.

2. Main principles, explanations and examples

2.1 Safekeeping services

- The fees for safekeeping services are calculated on an annual basis and invoiced monthly pro rata, plus the applicable rate of statutory value-added tax (VAT).
- The fees for safekeeping include the price for Statement of Holdings information.
- The fees for safekeeping include the price for Corporate Actions information supplied via File Transfer.
- Sliding scales apply to the calculation of fees for safekeeping services.
- The safekeeping services fees for Xemac accounts will not be invoiced separately, but together with the other safekeeping positions.
- Own categories for positions kept in Xemac sub-accounts 550 will no longer be kept.
- No safekeeping service fee is invoiced for securities denominated in Reichsmark or for subscription rights.
- The valuation of positions held in equities, warrants, zero bonds, book-entry securities rights, investment fund units, and similar instruments is at market prices.
- The valuation of positions held in fixed-rate Eurobonds, fixed-rate convertibles, other fixed-rate bonds and notes, floating-rate notes (FRN), Certificates of Deposit (CD), Commercial Paper (CP), Euro Commercial Paper, and all other notes and bonds is at nominal value.
- Should no market price be found for a non debt security, then a price of zero is applied to value the security position.
- All prices are quoted in basis points (1 bp = 0.01 percent).

2.1.1 Categories within safekeeping services fees

The decisive factor for the assignment of the securities to the respective categories is the information in the WSS (securities master data system) fields: "Verwahrmöglichkeit" and "Wertpapiergruppe" (custody option and securities classes - see annex 1).

Bonds, notes and similar debt instruments, and equities quoted as a percentage are broken down into two categories, i.e.:

- category I: bonds and notes, zero bonds and similar debt instruments quoted as a percentage or thousandth, evidenced by individual certificates;
- category II: bonds and notes, zero bonds and similar debt instruments quoted as a percentage or thousandth, evidenced by permanent global certificates.

Other categories in safekeeping are:

- equities, investment fund units and similar instruments quoted in units, evidenced by individual certificates or permanent global certificates;
- warrants, and
- non-German securities held in collective safe custody.

2.1.2 Sliding scales for safekeeping services fees

The example below gives the rationale for the sliding scales for safekeeping services fees.

Note: positions in a securities account total nominal value pro rata 35,000 million EUR in debt instruments of category I; according to the sliding scales, the safekeeping services fee is calculated as follows:

Account deposit value (in EUR million) nominal value		Partial volume of positions (in EUR million)	Corresponding fee in basis points (in EUR million)	Partial fee (EUR)
from	to			
0	500	500	0.800	40,000
500	3,000	2,500	0.700	175,000
3,000	6,000	3,000	0.600	180,000
6,000	12,000	6,000	0.500	300,000
12,000	25,000	13,000	0.450	585,000
25,000	50,000	10,000	0.325	325,000
Total for the year		35,000		1,605,000
				1,605,000 / 12
Monthly charge				133,750

2.1.3 Pro rata calculation of securities positions

The example below gives the rationale for calculating the pro rata securities positions.

Date	Position	No. of days relevant to the calculation	Pro rata calculation of positions
01.10.2012	10,000	01	1 x 10,000
02.10.2012	15,000	12	12 x 15,000
14.10.2012	12,000	01	1 x 12,000
15.10.2012	5,000	06	6 x 5,000
21.10.2012	10,000	04	4 x 10,000
25.10.2012	20,000	05	5 x 20,000
30.10.2012	15,000	02	2 x 15,000
Pro rata total of positions		31	402,000
Positions pro rata temporis			402,000/31=12,968

The pro rata positions are Clearstream Banking AG's basis for computation, i.e. the nominal values on each day of a month are added and divided by the number of calendar days of each month respectively.

2.2 Securities settlement and cash services

The fees for securities settlement and cash services are not linked to the fees for safekeeping services.

Prices for securities transactions can be found under "[4. Securities settlement, cash services and settlement related communication](#)".

General rules for charging fees for securities settlement and cash services are:

- the fee for transfers are calculated for each book entry;
- the invoicing occurs monthly, including the applicable rate of German statutory value-added tax (VAT) unless otherwise specified;
- rebates are applied on the monthly invoice based on transactions volume;
- an additional fee is charged for the data transport via the SWIFT network.

2.2.1 T2S - Specific rules applicable between 1 April 2013 and Clearstream's planned T2S migration in November 2016

- Clearstream will provide T2S settlement at the lowest possible price by passing on the settlement fee of the European Central Bank to its existing and future customers without adding any margin and without charging any settlement fee of its own. In doing so, Clearstream intends to encourage settlement volume to grow and to keep both domestic and cross-border settlement costs as low as possible in line with the T2S Economic Impact Assessment published by the ECB.
- Clearstream plans to pass on about one third of the overall development costs – namely the external portion – to its customers. This will be done via a T2S investment cost contribution of EUR 0.094 that is added to each instruction settled on the German CSD's settlement system CASCADE between 1 April 2013 and the company's planned migration in November 2016, with a total cap of EUR 30 million.
- Customers will also have the option of a deferred payment, depending on what best suits their business model. Clearstream is hereby giving customers the greatest possible flexibility to make the migration to T2S as smooth as possible and a manageable effort.
- Instruction types impacted by the investment cost contribution can be found under [Chapter 4.1](#), [Chapter 4.2](#) and [Chapter 4.3](#) (with the exception of cross-border via DTCC).
- No volume discounts apply to the T2S investment cost contribution.

a. Excluding DTCC link for which settlement fee amounts to 2.00 EUR per cross-border transaction and CBL link for which settlement fee amounts to 1.40 EUR per cross-border transaction.

2.3 Communication

Communication services are comprised custody related services only and include:

- Statement of Holding¹;
- Corporate Actions notification²;
- Corporate Actions confirmation and Paying Agent Claim reports².

General rules for charging communication fees are:

- Custody communication services are charged on a per-item basis;
- Rebates are calculated based on the monthly volume;
- the monthly invoicing including the applicable rate of German statutory value-added tax (VAT);
- for the technical connection an additional fee is charged by Deutsche Börse AG (DBAG) for CASCADE and the File Transfer system or
- an additional fee is charged for the data transport via the SWIFT network.

2.3.1 Fee calculation for custody related communication exemplifying Corporate Actions Notification and Corporate Actions Confirmation sent via SWIFT

- Notifications sent via SWIFT: 10,000
- Confirmations sent via SWIFT: 10,000

6.2.3 Custody Payment File (per month per account)	2,500.00

1. An additional fee is charged by Deutsche Börse AG (DBAG) for CASCADE and the File Transfer system. Third-party SWIFT costs for the connection to and the use of the SWIFT network are charged by CBF.
2. Corporate action information is not charged separately if supplied via File Transfer; it is included in safekeeping fees as part of standard service. Corporate action information received via SWIFT is charged on a per item basis.

7. Services for TARGET2 Single Shared Platform (SSP) cash clearing

Note: Late supply of sufficient cover refers to the single settlements DD1 (Direct debit 1) and DD2 (Direct Debit 2) which are cash cleared via TARGET2 Procedure 3. The fees are calculated according to the number of delays within the last 30 days including the respective clearing date.

7.1 Late supply of sufficient cover according to balance shown in transactions processing

8.3.4 Compensation payment	25.00
8.3.5 Corporate action based loan opening on amendment of position	25.00

9. Collateral Management

9.1 Xemac®

9.1.1 Xemac® fees on allocated volume¹ (pro rata monthly invoicing)

Allocated volume (in million EUR) market value		Fee (Basis points)
from	to	
0	2,000	0.50 Bp.
> 2,000	5,000	0.40 Bp.
> 5,000	10,000	0.30 Bp.
> 10,000	20,000	0.25 Bp.
> 20,000		0.20 Bp.

The above fees are charged to the collateral giver only. Only one price range will be applied to the entire allocated volume (stepping scale).

Note: For instance, 0.30 basis points p.a. would be applied to an allocated volume of EUR 6 billion which in turn would result in EUR 15,000 to be charged per month.

9.1.2 Eurosystem Triparty Collateral Management Services via Deutsche Bundesbank

Collateral mobilisation basis	Fee (Basis points)
Domestic	please refer to 9.1.1
Cross-border	0.50 Bp.

9.1.3 GC Pooling (pro rata monthly invoicing)²

GC Pooling	Fee (Basis points)
9.1.3.1 Collateral giver	0.25 Bp.
9.1.3.2 Collateral receiver	0.25 Bp.
9.1.3.3 External charges	

The monthly minimum fee for the total of positions 9.1.1, 9.1.2 and 9.1.3 amounts to EUR 2,500.

9.1.4 Fiduciary Service - Secured Instruments

Secured Instruments	Fee for counter value to be collateralised over all instruments (Basis points p.a.)	Minimum fee per month and instrument (EUR)		
		from	to	Fee (EUR)
Fiduciary fee Clearstream Banking	5.00 Bp.	1	50	185.00
		51	100	145.00
		101	300	100.00
		301	500	90.00
		> 500		80.00

Every price step will be applied till the total number of issued instruments is reached.

- For technical reasons, the average volume of allocated positions (allocated volume) is calculated from the 21st of the preceding month to the 20th of the invoiced month. The calculation is based on the highest value of the allocated positions on the particular day.
- In addition to the collateral fee, potential external costs will be passed on to customers.

Note: For a total number of 150 issued instruments with a value to be collateralised of EUR 150 Mio. over all instruments, EUR 21,500.00 would be charged (because the volume related fee is not higher than the minimum fee per month and instrument).

Independent from that the fees on the allocated volume according to 9.1.1 remain valid.

9.1.5 Prices for optional Xemac® backup lines

Prices for Xemac backup line		Fee (EUR)
9.1.5.1	Installation of line (one-off payment)	2,000.00
9.1.5.2	within Frankfurt (monthly)	1,200.00
9.1.5.3	to other locations within Germany (monthly)	2,800.00

9.2 KAGplus

Position		Equities	Bonds
9.2.1	Lending income	agreed borrowing rate	agreed borrowing rate

		>7,000	10,000	5.00	2.25
			>10,000	4.00	1.80

a. The above fees are charged to the borrower only. Price to be applied depends on the weighted monthly average volume traded per asset class (stepping scale).

Position		Equities	Bonds
9.2.3	Borrower fee ^a	agreed borrowing rate	agreed borrowing rate

a. Additional fees can be charged. Please refer to [Chapter 8.3](#).

10. Taxbox Service for German Flat Tax for Investment Income

Position	Fee (EUR)
10.1 One-off setup including connection (collected from each functional participant) ^a	5,000.00
10.2 Transmission of records (price per record) ^b	0.15
10.3 Reception of records (price per record) ^c	0.15

- a. The fee will only be levied once if a functional participant also acts as technical participant.
- b. A fee will only be charged for records which have passed the validation process. A fee will also be charged for follow-up records.
- c. Only valid records are transmitted. Blank records will be charged. A fee will also be charged for follow-up records.

11. Miscellaneous charges

Position	Fee (EUR)
11.1 Special services	
11.1.1 Hourly rate for special services	143.00
11.1.2 Hourly rate for test support	200.00
11.2 Daily rate for consulting and special services	2,000.00
11.3 Premium for manual handling services	30.00
11.4 Monthly account maintenance	125.00

11.5 Line fee for securities with no/zero price

Number of ISINs per securities account	Price per ISIN/month (EUR) ^a
0 - 500	12.00
500 - 750	6.00
> 750	3.00

- a. Applies to all non-debt securities, based on the month-end volume and charged per securities account.

11.6 Domestic Markets Monitoring Report

An annual fee of EUR 10,000 will be charged at the end of each year. (Should the relevant account be closed within the year, the full amount will be charged upon closure.)

12. Investment funds services - Vestima

Annex 1 - Instrument categories

The decisive factor for the assignment of the securities to the respective categories is the information in the WSS (Securities master data system) fields.

The controlling tables are

- WSS-table G16 -- Custody option
- WSS-table G18 -- Country of custody-AKV
- WSS-table GE9 -- Product group segment

The declaration of the country of custody decides what safekeeping sliding scale (fee schedule position) is used for calculation.

2. See Domestic bonds below.

3. In addition, the field "LGL/LGS" contains the value "991/060" CSD/CBF L.

Domestic bonds

The final assignment to the fee schedule positions depends on the following custody options:

3.1.1 Bonds individual certificate

005, 009, 012, 013, 019, 020, 021, 041, 044, 045, 088, 091, 092, 096, 097

Annex 2 - Pricing procedure for calculating safekeeping fees

Data basis

Basis for pricing is currently the securities master data system (Wertpapier Service System - WSS). The controlling WSS tables are

- WSS-Tabelle G16 -- Custody option
- WSS-Tabelle G06 -- Security type

Price currency

Price fixing is in EUR as a matter of policy.

For securities classes in foreign currencies the price fixed is multiplied by the corresponding forex rate of the price of the corresponding security.

Sequence of stock exchanges for price fixing

Stock exchanges are searched in the sequence below:

Abbreviation	Designation
EDE	Xetra
EDF	Frankfurt
EDD	Dusseldorf
EDM	Munich
EDH	Hamburg
EDB	Berlin
EDS	Stuttgart
EDI	Hanover
EDC	Bremen
EDX	Retail investment/specialised investment funds
ED	Private placement (Germany) / bonds area = short term notes / derivatives trading = prices quoted by floor specialists / Federal Treasury short-term notes = calculated prices (maturity + discount rate)
EUA	Trading in Eurobonds
ELL	Luxembourg Stock Exchange
EDT	Derivatives exchange
Home market	Corresponding entry in the securities master data (foreign securities only)
Any other foreign stock exchange	

Prices types

The price types given in the annex of the invoice are as below:

Nominal value (N)

The nominal value is the basis for calculating safekeeping fees for bonds, where they are listed as a percentage and thousandth.

End-of-month price (U)

The price quality and sequence of the stock exchanges follow the end-of-month price.

If no end-of-month price can be found for a called month, the price calculation module tries to establish the next current daily price within the month requested.

Annual price for tax purposes (S)

The annual price for tax purposes will be used if by year-end no month-end price nor a current price is available.

The annual price for tax purposes is contained in the securities master data. There is only one annual price for tax purposes per securities class. The annual price for tax purposes may not be older than the date of the most recent year-end, exception: January processing.

If it is the annual price for tax purposes which is being calculated, the annual forex price for tax purposes is worked out using the relevant currency. Otherwise the daily forex price/the annual forex price for tax purposes is calculated using the currency of listing, taking "Frankfurt" as stock exchange market into account.

Other cases

A zero price is applied if none of the above prices (N, U, S) can be found. To inactive ISINs a zero price is applied.
