

Customer Data Sharing Summary

Clearstream Banking S.A. (CBL) is an entity supervised by the Commission de Surveillance du Secteur Financier (CSSF), including supervision on outsourcings and the sharing of Customer Data to be in line with applicable laws and regulations. Subject to the terms of the General Terms and Conditions and the conditions of applicable laws and regulations, CBL may share Customer Data and outsource tasks. CBL has stringent control mechanisms in place ensuring Customer Data is only shared on a “need to know” and “least principle” basis. Affiliates and other third parties who have access to Customer Data are either subject by law to professional secrecy or be bound by appropriate confidentiality terms; this includes as well any third party providers of IT platforms or cloud infrastructures regardless of whether or not they may exceptionally have access to Customer Data in the scope of support or maintenance activities.

CBL and other Affiliates of Deutsche Börse AG use a common platform tool for the performance of anti-money laundering (AML), countering the financing of terrorism (CTF) and know-your-customer (KYC) duties to ensure regulatory compliance. To the extent the Customer is or becomes prospect or customer of other Affiliate(s), this platform also provides for specific sharing of Customer Data between the relevant entities; such data being limited to the Customer’s AML, CTF and KYC data, as required by applicable laws, regulations and internal policies.

While other third-party services providers may be used, CBL mainly delegates tasks and shares Customer Data within the internal operating framework of Deutsche Börse Group, and here primarily with
