## Introduction

This Cash Timings Matrix is a quick reference guide for settlement currencies eligible in Clearstream Banking Luxembourg (CBL) via the Creation platform.

Settlement and cash deadlines are aligned with local times such that CBL takes Daylight Saving Time (DST) changes around the world into account when setting its Central European Time (CET) deadlines. This enables customers to benefit from extended CET deadlines whenever possible. (Unless otherwise indicated, all timings are given in CET.)

A new version of this document will be available in October each year.

For more detailed information about the domestic cash and securities services provided by Clearstream Banking, please refer to [www.clearstream.com](http://www.clearstream.com) under Products and Services / Market Coverage.

**Note:** Customers are reminded that CBL reserves the right to return to the remitter any funds paid to cash accounts not included in this Cash Timings Matrix. CBL shall not be held liable in any manner whatsoever for any claim arising out of or related to such return.

## Cancelling/amending cash instructions

Customers can cancel or amend a cash instruction already sent to CBL provided that the new instruction is received before the relevant deadline. Instructions that are still in suspense can be cancelled or amended by customers (although pre-advices cannot be cancelled after the earliest deadline for the value date given in the pre-advice of funds instruction).

Instructions are considered by CBL to be irrevocable and cannot be cancelled once they have been released for settlement in a domestic market or reported in the General Report.

## Cash instruction deadlines

Standard deadlines apply to cash instructions submitted via all connectivity media. Cash instruction deadlines vary according to currencies and markets.

Currencies accepted in CBL are divided into same-day and next-day currencies.

For same-day currencies (VD), the instruction deadline occurs on requested value date and the instruction is eligible for cash settlement for same day value.

For next-day currencies (VD-1 and VD-2), the instruction deadline is before requested value date and the instruction is not eligible for cash settlement for same day value.

The deadlines shown in the Matrix are valid provided that the customer's instructions are complete, accurate and eligible for straight-through processing (STP) in CBL and in the local market. Customers must also ensure that any necessary provision is available. If any of these criteria are not met, CBL cannot guarantee timely settlement.

## Abbreviations used in the Matrix

<b>SD</b>	Settlement Date.
<b>VD</b>	Value Date (the date applied by CBL for the purposes of interest calculation to funds debited from or credited to an account).

For instructions above this threshold limit or received after the instruction deadline, CBL will execute the FX operation according to spot market procedures and on a "best efforts" basis.
