Message Functionality

Collection Description

OneClearstream - CBPR+ Customers (SR2025) ([link](#))

This is the Cross-Border Payment and Reporting Collection part of Standards Release November 2025 for Clearstream.

Usage Guideline Description

CBPRPlus-camt.057.001.06_NotificationToReceive ([link](#))

Principles:

1A. AGENTS IDENTIFICATION - Textual Rules

-> If BICFI is present, then (Name & Postal Address) is NOT allowed (ClearingSystemMemberIdentification and LEI may complement) – However, in case of conflicting information, the BICFI will always take precedence.

-> If BICFI is absent, (Name & Postal Address) OR [(Name & Postal Address) and ClearingSystemMemberIdentification] must be present.

Exception: If BICFI is absent, whenever Debtor Agent, Creditor Agent and all agents in between are located within the same country, the clearing code only may be used.

1B. DEBTOR - PARTY IDENTIFICATION - Textual Rules

-> If AnyBIC is present, then (Name and Postal Address) is NOT allowed (other elements remain optional) - However, in case of conflicting information, AnyBIC will always take precedence.

-> If Name is present, it is recommended to use Postal Address.

2. Character Set:

All proprietary and Text fields EXCLUDING Name and Address for all actors and Related Remittance Information and Remittance are limited to the FIN-X-Character set.

All Name and Address for all actors, Related Remittance Information and Remittance Information (structured and unstructured), Email Address where included as part of a proxy element are extended to support the following additional characters:

!#\$%&*=^_ '{}~";<>@[\]

< is replaced with <

> is replaced with >

3. CBPR_Agent_PointToPointOnSWIFT:

If the transaction is exchanged on the SWIFT network (ie if the instructing agent/sender and instruted agent/receiver of the message are on SWIFT), then BICFI is mandatory and other elements are optional, eg LEI

Outline

In the Collection OneClearstream - CBPR+ Customers (SR2025), the message CBPRPlus-camt.057.001.06_NotificationToReceive is composed of a mandatory Business Application Header V02 (head.001.001.02) and a Document.

Business Application Header V02 (head.001.001.02)

The Business Application Header V02 (head.001.001.02) is composed of 15 elements.

a - Character Set

Contains the character set of the text-based elements used in the Business Message.

b - From

The sending MessagingEndpoint that has created this Business Message for the receiving MessagingEndpoint that will process this Business Message.

Note the sending MessagingEndpoint might be different from the sending address potentially contained in the transport header (as defined in the transport layer).

c - To

The MessagingEndpoint designated by the sending MessagingEndpoint to be the recipient who will ultimately process this Business Message.

Note the receiving MessagingEndpoint might be different from the receiving address potentially contained in the transport header (as defined in the transport layer).

d - Business Message Identifier

Unambiguously identifies the Business Message to the MessagingEndpoint that has created the Business Message.

e - Message Definition Identifier

Contains the MessageIdentifier that defines the BusinessMessage.

It must contain a MessageIdentifier published on the ISO 20022 website.

example camt.001.001.03.

f - Business Service

Specifies the business service agreed between the two MessagingEndpoints under which rules this Business Message is exchanged.

To be used when there is a choice of processing services or processing service levels.

Example: E&I.

g - Market Practice

Specifies the market practice to which the message conforms. The market practices are a set of rules agreed between parties that restricts the usage of the messages in order to achieve better STP (Straight Through Processing) rates.

A market practice specification may also extend the underlying message specification by using extensions or supplementary data of this underlying message.

h - Creation Date

Date and time when this Business Message (header) was created.

i - Business Processing Date

Processing date and time indicated by the sender for the receiver of the business message.

This date may be different from the date and time provided in the CreationDate.

Usage: Market practice or bilateral agreement should specify how this element should be used.

j - Copy Duplicate

Indicates whether the message is a Copy, a Duplicate or a copy of a duplicate of a previously sent ISO 20022 Message.

k - Possible Duplicate

Flag indicating if the Business Message exchanged between the MessagingEndpoints is possibly a duplicate.

If the receiving MessagingEndpoint did not receive the original, then this Business Message should be processed as if it were the original.

If the receiving MessagingEndpoint did receive the original, then it should perform necessary actions to avoid processing this Business Message again.

This will guarantee business idempotent behaviour.

NOTE: this is named "PossResend" in FIX - this is an application level resend not a network level retransmission.

l - Priority

Relative indication of the processing precedence of the message over a (set of) Business Messages with assigned priorities.

m - Signature

Contains the digital signature of the Business Entity authorised to sign this Business

Message.

n - Related

Specifies the Business Application Header(s) of the Business Message(s) to which this Business Message relates.

Can be used when replying to a query; can also be used when canceling or amending.

o - CrossElementComplexRule : RelatedPresentWhenCopyDupl

Related MUST contain the relevant BusinessMessageHeader elements of the BusinessMessage to which this BusinessMessage relates.

If CopyDuplicate is present, then Related MUST be present.

Document - Notification To Receive V06 (camt.057.001.06)

The Document - Notification To Receive V06 (camt.057.001.06) is composed of 3 elements.

a - Group Header

Set of elements used to provide further details on the message.

b - Notification

Set of elements used to provide further details on the account notification.

c - Supplementary Data

Additional information that cannot be captured in the structured elements and/or any other specific block.

About this document

Legend

Abbreviation	Term	Description
X	Excluded	An optional field or element must not be populated.
I	Ignored	A field or element could be populated but is ignored by the receiver.
[x..y]	Multiplicity	A field or element multiplicity has changed.
FV	Fixed Value	A field or element must contain a given value.
T/C	Type / Code Change	A user-defined datatype replaces an existing simple datatype.
A	Element Added	A field or element has been added.

Header	Description
Index	Element reference
LvL	Element nesting in tree hierarchy
Name	Element name
XML Tag	Element XML tag
Mult	Element multiplicity
Type / Code	Element formatting
Rest	Restriction type
Additional details	Other restriction specifics

Type/Code Notation	Describes the Element	Examples
text{m,M}	minimum (m) and maximum (M) length	text{1,35}
text{L}	maximum (L) length, minimum length is 0	test{10}
m <= decimal <= M	minimum (m) and maximum (M) values	0.01 <= decimal <= 9999.99
fd = F, td = T	maximum fractional (F) and total (T) number of digits	fd = 2, td = 11
<<regular expression>>	regular expression pattern	[A-Z]{6,6}([A-Z0-9]{3,3}){0,1}

Rule Definitions

Index	Name	Description	Formal Rule Definition
R1	Rule "CBPR_Character_Se t_Usage_TextualRule"	For further description on the usage of the field, pls refer to the CBPR Plus UHB.	
R2	Rule "CBPR_Business_Me ssage_Identifier_Text ualRule"	<p>The Business Message Identifier is the unique identifier of the Business Message instance that is being transported with this header, as defined by the sending application or system.</p> <p>Must contain the Message Identification element from the Group Header of the underlying message, where available (as is typically the case with pacs, pain, and camt messages, for example). If Message Identification is not available in the underlying message, then this field must contain the unique identifier of the Business Message instance.</p>	
R3	Rule "CBPR_Message_Defi nition_Identifier_Textu alRule"	The Message Definition Identifier of the Business Message instance that is being transported with this header. In general, it must be formatted exactly as it appears in the namespace of the Business Message instance.	
R4	Rule "CBPR_Business_Ser vice_TextualRule"	<p>This field may be used by SWIFT to support differentiated processing on SWIFT-administered services such as FINplus. For a description of reserved values, please refer to the Service Description for your service.</p> <p>To support differentiated processing on CBPRPlus, for example, SWIFT reserves a set of values that conform to a specific format.</p> <p>A user-specific value may be used, but please contact your Service Administrator before doing so to ensure alignment with general practice on your service.</p>	

R5	Rule "CBPR_Business_Service_Usage_TextualRule"	The value "swift.cbprplus.03" must be used.	
R6	Rule "CBPR_Market_Practice_TextualRule"	<p>This field may be used by SWIFT on SWIFT-administered services. For a description of reserved values, please refer to the Service Description for your service. Contact your Service Administrator for further clarification, if necessary.</p> <p>A user-specific value may be used, but please contact your Service Administrator before doing so to ensure alignment with general practice on your service.</p>	
R7	Rule "CBPR_Related_Business_Application_Header_TextualRule"	If used, the Related BAH must transport the exact same information as in the BAH of the related message.	
R8	Rule "CBPR_Related_BAH_Business_Service_TextualRule"	If related BAH is present, it should transport the element Business Service.	
R9	Rule "CBPR_Expected_Value_Date_FormalRule"	If Notification/ExpectedValueDate is absent, then item/ExpectedValueDate must be present.	<p>For each [Full Message/Document/NotificationToReceiveV06/Notification], if the following element(s) [Notification/ExpectedValueDate] is (are) absent, then at least one occurrence of the following element(s) [Notification/Item/ExpectedValueDate] must be present</p>

R10	Rule "CBPR_Co-existence_Postal_Address_TextualRule"	<p>Address Line (Unstructured Address) remains available only for cases when the payment is initiated in FIN, or by an MI, during coexistence only. The Structured PostalAddress remains the preferred option.</p> <p>Therefore:</p> <ul style="list-style-type: none"> - If a payment is initiated on FIN, or by an MI, and the postal address is unstructured, the outgoing ISO 20022 message will transport unstructured postal address, up to the Creditor Agent. - If a payment is initiated in ISO 20022, postal address must be structured (Do not use AddressLine sub element in Postal Address). 	
R11	Rule "CBPR_Debtor_Option_3_Jurisdictions_only_TextualRule"	<p>For Jurisdictional transactions, Debtor/ Name is mandatory with either Debtor Account OR Debtor Identification (that is within a country or for regions under same legislations – eg EAA)</p> <p>Countries impacted by the Jurisdictional rule: Belgium, Bulgaria, Czechia, Denmark, Germany, Estonia, Ireland, Greece, Spain, France, Croatia, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Hungary, Malta, Netherlands, Austria, Poland, Portugal, Romania, Slovenia, Slovakia, Finland, Sweden- Iceland, Liechtenstein, Norway.</p> <p>Note: The jurisdictional rules apply only when all agents in the payment chain underly the same jurisdiction.</p>	
R12	Rule "CBPR_Party_Name_Any_BIC_FormalRule"	<p>If AnyBIC is absent then Name is mandatory and it is recommended to also provide the Postal Address.</p>	<p>For each [Full Message/Document/NotificationToReceiveV06/Notification/Debtor/Party], if the following element(s) [Party/Identification/OrganisationIdentification/AnyBIC] is (are) absent, then at least one occurrence of the following element(s) [Party/Name] must be present</p>

R13	Rule "CBPR_Party_Name_Postal_Address_FormalRule"	If Postal Address is present then Name is mandatory.	For each [Full Message/Document/NotificationToReceiveV06/Notification/Debtor/Party], if at least one occurrence of the following element(s) [Party/PostalAddress] is (are) present , then at least one occurrence of the following element(s) [Party/Name] must be present
R14	Rule "CBPR_Debtor_BIC_Presence_TextualRule"	If Any BIC is present, then (Name and Postale Address) is NOT allowed (other elements remain optional) - However, in case of conflicting information, AnyBIC will always take precedence.	
R15	Rule "CBPR_Town_Name_And_Country_FormalRule"	If "PostalAddress" is used, and if AddressLine is absent, then Country and Town name must be present.	For each [Full Message/Document/NotificationToReceiveV06/Notification/Debtor/Party/PostalAddress], if the following element(s) [PostalAddress/AddressLine] is (are) absent , then at least one occurrence of the following element(s) [PostalAddress/TownName] and [PostalAddress/Country] must be present

R16	Rule "CBPR_GracePeriod_Hybrid_FormalRule"	If Address Line is present and any other Postal Address element(s) are present, then Town Name and Country are mandatory in Postal Address and a maximum of two occurrences of Address Line are allowed.	For each [Full Message/Document/NotificationToReceiveV06/Notification/Debtor/Party/PostalAddress], if at least one occurrence of the following element(s) [PostalAddress] is (are) present and at least one occurrence of the following element(s) [PostalAddress/AddressLine] is (are) present , then for each [PostalAddress], if at least one occurrence of the following element(s) [PostalAddress/Department] is (are) present then at least one occurrence of the following element(s) [PostalAddress/TownName] and [PostalAddress/Country] must be present and there must be maximum '2' occurrences of [PostalAddress/AddressLine] and for each [PostalAddress], if at least one occurrence of the following element(s) [PostalAddress/SubDepartment] is (are) present then at least one occurrence of the following element(s) [PostalAddress/TownName] and [PostalAddress/Country] must be present and there must be maximum '2' occurrences of [PostalAddress/AddressLine] and for each [PostalAddress], if at least one occurrence of the following element(s) [PostalAddress/StreetName] is (are) present then at least one occurrence of the following element(s) [PostalAddress/TownName] and [PostalAddress/Country] must be present and there must be maximum '2' occurrences of [PostalAddress/AddressLine] and for each [PostalAddress], if at least one occurrence of the following element(s) [PostalAddress/BuildingNumber] is (are) present then at least one occurrence of the following element(s) [PostalAddress/TownName] and [PostalAddress/Country]
-----	--	--	--

			<p>must be present and there must be maximum '2' occurrences of [PostalAddress/AddressLine] and for each [PostalAddress], if at least one occurrence of the following element(s) [PostalAddress/BuildingName] is (are) present then at least one occurrence of the following element(s) [PostalAddress/TownName] and [PostalAddress/Country] must be present and there must be maximum '2' occurrences of [PostalAddress/AddressLine] and for each [PostalAddress], if at least one occurrence of the following element(s) [PostalAddress/Floor] is (are) present then at least one occurrence of the following element(s) [PostalAddress/TownName] and [PostalAddress/Country] must be present and there must be maximum '2' occurrences of [PostalAddress/AddressLine] and for each [PostalAddress], if at least one occurrence of the following element(s) [PostalAddress/PostBox] is (are) present then at least one occurrence of the following element(s) [PostalAddress/TownName] and [PostalAddress/Country] must be present and there must be maximum '2' occurrences of [PostalAddress/AddressLine] and for each [PostalAddress], if at least one occurrence of the following element(s) [PostalAddress/Room] is (are) present then at least one occurrence of the following element(s) [PostalAddress/TownName] and [PostalAddress/Country] must be present and there must be maximum '2' occurrences of [PostalAddress/AddressLine] and for each [PostalAddress], if at least one occurrence of the following element(s)</p>
