Message Functionality

Overview

The Meeting Results (seev.008) are only available if Clearstream Banking has received the Meeting Results (seev.008) from the respective Clearstream Banking market provider (depository, provider or agent).

Clearstream Banking does not perform a reconciliation or validation of received Meeting Results (seev.008) but forwards the message to clients as received from the Clearstream Banking market provider (depository, provider or agent).

Collection Description

Guidelines applicable after Clearstream's Release in 24 November 2025 including changes from the Swift Release (SR2025)

This Usage Guideline includes the ISO 20022 message structures which are initially introduced by Clearstream for general meetings during the SCE Project in November 2024.

The focus in this section lies on messages which are sent between Clearstream and Clearstream clients (that is, account holders or their respective third-party service providers).

Version changes :

v.2 From v.1: Provision of the Building Number information in the Rights Holder section is no longer mandatory for Registration instructions.

DISCLAIMER: Please note that these message structures have been created based on the current understanding. Not all discussions and testing procedures have been finalised. As such, the message structures are subject to change and have to be considered as a preliminary version.
