

LendingNext

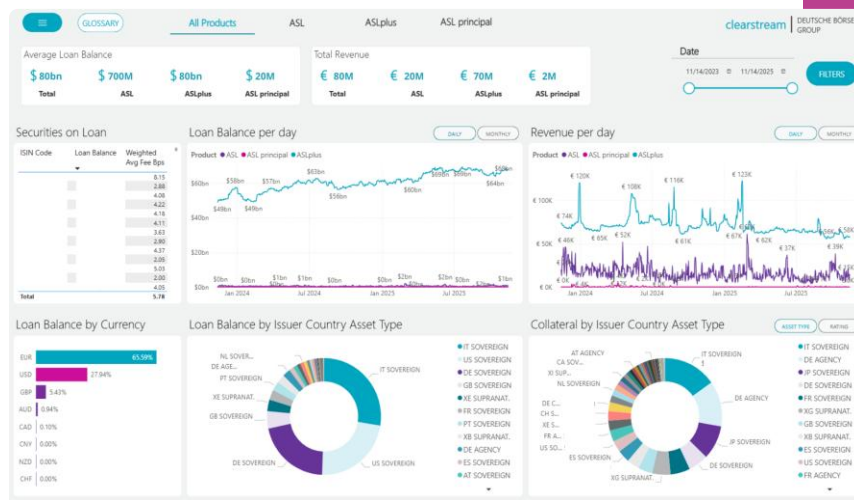

The Future of Lending Visibility

LendingNext is Clearstream's advanced analytics dashboard designed to bring transparency, efficiency, and strategic oversight to securities lending activity.

In a market where lending positions are often fragmented across multiple programs and accounts, gaining a holistic view can be challenging. LendingNext addresses this complexity by consolidating historical data and insights into one intuitive tool.

Through its comprehensive features – trend analysis, portfolio visualization, and customizable reporting – it delivers actionable intelligence, enabling clients to monitor performance, identify opportunities, and make data-driven decisions with confidence.

The data and visuals presented are for illustrative purposes only and intended solely for demonstration.

How can LendingNext benefit you?

Clearstream's LendingNext empowers institutions with a unified, intuitive, and transparent view of their lending activity.

- Gain **data-driven insights**, enhance efficiency, and maintain transparency in your portfolio performance at Clearstream.
- Access historical data to identify trends and **monitor lending activity** over time.
- Visualize your lending portfolio with **detailed breakdowns** by securities, asset types, and products.
- Leverage comprehensive data to make informed decisions and understand portfolio behavior in lending programs.

Key features of LendingNext

- Global lending overview:** consolidate tri-party, bilateral, and automated lending data into one interface for complete visibility.
- Trend analysis and historical data:** access annual, monthly, and weekly KPIs such as total revenue and loan balances to identify patterns and evaluate performance.
- Portfolio breakdown and visualization:** segment lending activity by account, product, top securities, currency, asset type, and product type.
- Customized reporting:** generate reports on both loan and collateral legs, with flexibility to group daily data over chosen timeframes and accounts.
